

**SCDOT's Public Notification of Interstate Bridges
on I-95 over Little Reedy Creek**

The South Carolina Department of Transportation (SCDOT) is providing public notification of the addition of bridges to the Interstate Rehabilitation project on I-95 southbound (near mile marker 171 to near mile marker 193) in Florence and Dillon Counties. The bridges will be reflected in the Statewide Transportation Improvement Program (STIP).

Recent hydrology studies have shown that existing culverts on I-95 over Little Reedy Creek need to be upgraded to bridges to meet current hydrological design standards. The upgrades to the bridges are being added to the scope of work on the Interstate Rehabilitation project on I-95. The increase to construction costs in Fiscal Year (FY) 2021 from \$35,000,000 to \$50,000,000 covers the cost of replacing the existing culverts with bridges.

A summary of any substantive comments will be made available to the Commission prior to including the project in a future revision of the STIP.

A copy of this press release (along with a location map) is available for public review and comment until **January 3, 2019** online at these links:
