Hurricane Michael Operations Report

4:00 PM

October 11, 2018

**SCDOT Operations Mode:
Response & Recovery**

Statewide Summary – SCDOT has responded to the impacts of Hurricane Michael. SCDOT Maintenance Crews have been working to clear 917 fallen trees from roadways, address drainage issues, and assist in road closure operations associated with flooding where necessary. SCDOT has completed the initial cleanup operations with the exception of trees entangled in utility lines and roads that remain flooded due to Hurricane Michael.

At 6:30PM today, all movable bridges in Beaufort and Charleston County will be reopened to allow for marine traffic. Horry County moveable bridges will reopen to marine traffic tomorrow, October 12th at 8:00AM.

A report of the remaining Hurricane Michael storm related closures is attached below.

SCDOT continues daily communication and coordination with other emergency service providers.

The SCDOT Call Center will operate with extended schedule until 11:00 PM.

In areas affected by flooding and downed trees, motorists are urged to obey all road closures. Never move or drive around barricades. Remember: It is NEVER safe to drive or walk into flood waters. Turn around, don't drown!
