A. PURPOSE OF REQUEST:

The **SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION (SCDOT)** requests a letter of interest and a proposal containing qualifications from all interested consulting firms experienced in providing inspection and testing services of prestressed/precast concrete, and other related structural materials for various highway and bridge construction projects. Requested services include, but are not limited to:

- Casting inspection of prestressed/precast concrete products,
- Sampling and testing of various other concrete and steel related materials associated with highway and bridge construction.

These services will be provided under a three (3) year statewide On-Call contract on an “as needed” basis. The SCDOT will select up to three (3) firms to provide these services, with a total maximum On-Call amount for the three (3) year period not to exceed \$300,000.00 to be distributed among the selected firms. Consultants will be evaluated and ranked based on their score during the selection process. Work under each On-Call will be assigned based on the consultant’s qualifications for the project being

assigned for an individual task order/work order. The project team should be capable of providing all services outlined above.

SCDOT will use a one-step evaluation process. After evaluating the submitted RFP, the Selection Committee will recommend the top-ranking firms in order to the Chief Procurement Officer (CPO). The Chief Procurement Officer (CPO) will have final approval. The determination regarding how many Proposers to recommend is not subject to review or protest. Cost is NOT a factor in the ranking of consultants to provide services herein. DO NOT include any reference to consultant costs in the RFP response. Any RFP response with any discussion of cost will be disqualified. Consultants are advised that this evaluation and selection process is a competition and not simply a prequalification. Note that any Task Order, or Work Order issued under this On-Call will utilize one of the following methods of compensation: cost plus fixed fee with a contract maximum, specific rates of compensation/unit rates with a contract maximum, or lump sum.

NOTES:

1. Work awarded under this solicitation includes projects that are being administered by SCDOT and funded by other governmental entities pursuant to an IGA or LPA agreement between the SCDOT and the governmental entity. In those cases, a separate agreement between that governmental entity and the consultant will be prepared and administered by SCDOT to cover the services.
2. SCDOT may elect to procure services similar or identical to those outlined in this RFP through small purchase programs (23 CFR 172.7), even after firms are selected for this RFP. In such cases the total contract costs will not exceed the Federal simplified acquisition threshold (48 CFR 2.101). Firms selected for this RFP will be eligible to respond to small purchase solicitations.

B. SCOPE OF SERVICE:

I

I. GENERAL

The consultant shall provide “on-call” inspection and testing services for various materials used in bridge and road construction. The inspection to be performed under this agreement shall conform to the latest edition of the South Carolina Department of Transportation’s Standard Specifications for Highway Construction, the Special Provisions, and the plans for the specific project, as applicable. The Inspection Agency shall conduct mill inspections when authorized using both South Carolina Department of Transportation (hereafter referred to as the Department) plans and approved shop plans as the basis of inspection. In case of discrepancy between the two, such discrepancy should be resolved to the satisfaction of the Department before continuing. Inspection Agency personnel performing inspection under this agreement shall be familiar with the material being inspected, Department specifications and testing requirements for the material, and otherwise appropriately qualified as defined by the Department to perform such inspection or testing.

Federal regulations involving test results used for acceptance of materials now requires that qualified laboratories obtain the results. Consequently, maintenance of AASHTO accreditation (or access to accredited laboratories) in the testing of aggregates, portland cement concrete, reinforcing steel, and the physical and chemical testing of hydraulic cement is required in most circumstances.

II. PRESTRESSED/PRECAST CONCRETE PRODUCT INSPECTION

When the Department so requests, the Inspection Agency shall provide prestressed/precast product inspection using both Department plans and approved shop drawings as the basis of

inspection. The Inspection Agency's inspectors shall be appropriately certified by the Department, ACI, PCI, or a Department-approved equivalent. The inspectors shall have previous experience and training in the inspection of these types of items and shall demonstrate proficiency in the inspection tasks for Department personnel when requested.

The Inspection Agency's inspector shall see that all forms are clean and that the stressing force and elongation of strand is in accordance with approved shop drawings. The location of the reinforcing steel or spiral wire shall be checked to assure that it is in accordance with approved shop drawings and securely tied.

The Inspection Agency's inspector shall check the concrete design to see that it meets contract and specification requirements using a Department-approved mix design. The fresh concrete shall be observed by the Inspection Agency's inspector to insure that the slump and air content meet specification requirements. Cylinders shall be made and cured according to ASTM/AASHTO specifications. Cylinders shall be tested to insure release and 28-day strengths required by the specifications are met.

Documentation of pour dates and required samples submitted must be maintained in accordance with the Department's Construction Manual and Precast-Prestress procedures. Agency inspectors shall stamp all approved items shipped from the fabricating plant with an official stamp.

The Inspection Agency will be compensated for these services in accordance with previously agreed upon rates.

III. TESTING OF CONCRETE, STEEL, AND HYDRAULIC CEMENT

The Inspection Agency may be requested to perform testing of cement, concrete, and steel specimens to AASHTO, ASTM, Department, or other test methods. This testing may be routine (such as curing and strength testing of cylinders and beams, steel reinforcing bars, wire, cable, and bolts and fastening systems) and serve as an adjunct to the Department's own testing capability during times of high sample volume or equipment breakdown. The Inspection Agency shall provide test reports in Department format. The reports may be issued either on paper or via e-mail using Adobe's pdf file protocol at the Department's option. In these cases, appropriate accreditation, geographic location, and the ability to handle large volumes of samples at short notice are important.

Alternatively, testing may be requested to handle special or unusual circumstances in low volume. This testing may be, but is not limited to, special chemical analysis of hydraulic cement, petrographic analysis of hardened concrete, or testing of steel reinforcing larger than #11 and high strength cable. In these cases, access to special testing facilities, even those at remote locations, is important.

IV. MISCELLANEOUS TASKS

The Department may request the Inspection Agency to provide other inspection services as well as sampling and testing of various other materials associated with highway and bridge construction. Additionally, The Department may desire that the consultant perform certain inspection services not specifically described in this scope of services or covered by previously agreed upon rates. In such instances, rates shall be established and approved by the Department before such work begins.

V. REPORTS, INVOICES, PAYMENT, PERSONNEL COST ESTIMATES, WORKING OFFICE

- Reports: Copies of all reports required by this scope of services shall be submitted to the Department's Materials and Research Engineer. The type of reports and information to be furnished is described in each of the Sections I through IV of this document. In general, each inspection report shall clearly state the work that has been performed and shall describe each day's inspection activities. For each Department of Transportation file number, the Inspection Agency shall prepare

weekly inspection reports for shop or fabrication inspection and each type of nondestructive or other testing performed. Each shop or fabrication inspection report will carry a reasonable percentage value for work completed with the final report indicating that the work is completed. Each report will show the name or names of inspectors actually performing the inspection. The inspection reports shall be on standard forms, shall have attached all source mill test reports, certified test reports, or certifications required by the Specifications, Special Provisions, or plans for the file number and shall be signed by the Inspection Agency Manager.

- Invoices: Invoices shall reference submitted inspection reports and show exactly the pay quantities as described on the previously agreed upon schedule of payments for the services performed. The Inspection Engineer shall submit four copies of each invoice to the Department's Materials and Research Engineer. No further copies to the Department will be necessary
- Payment: Checks in payment for services rendered will be drawn to the order of the official name of the Inspection Agency at the specified address. Payments will be based on approved invoices.
- Personnel: The Inspection Agency shall assign a sufficient number of competent, qualified personnel to the work under this agreement to secure completely adequate inspection services during all phases of the work. Inspector shall be responsible for adequate inspection services on multiple projects if multiple projects are being fabricated at the same facility unless, in the opinion of the Department, multiple inspectors are needed.
- Working Office: The Inspection Agency shall designate a "working office" to serve as a point of contact for the Department.

C. METHOD OF PROCUREMENT:

This is a qualifications-based selection and the contract will be competitively negotiated. Awards will be given to the most qualified of the responsible and responsive consultant firms. This qualification-based selection is based on the Brooks Act (40 U.S.C. 11).

D. SUBMITTAL FORMAT:

All responding firms must utilize ProjectWise, SCDOT's electronic proposal submission process. Submitted proposal documents that are uploaded into ProjectWise should be named with the following format: S-196-17_RespondingFirmName.pdf.

Please contact Eric Stuckey at 803-737-1003 or StuckeyEC@scdot.org to set up an account to begin utilizing the electronic submittal process. The RFP response must be submitted by the date and time listed in this RFP.

Responses also must address each of the following proposal content requirements in the same order as listed below. The consultant may wish to include additional information. If a consultant does not submit responses to these items, their submittal may be considered non-responsive and returned without further review/evaluation. Consultants are advised that SCDOT reserves the right to conduct an independent investigation of any information, including prior experiences, identified in the responses. Consultants are responsible for effecting delivery by the deadline date and time; late submissions will be rejected without opening. SCDOT accepts no responsibility for misdirected or lost proposals. F. SELECTION CRITERIA AND EVALUATION PROCESS:

A selection committee comprised of subject matter experts will be established by SCDOT to review the RFP responses and rank the firms. The selection committee will receive copies of each responsive RFP response submitted and will review and draft preliminary scores based on the selection criteria. The selection committee will then meet to discuss the RFP responses and determine if interviews are necessary. If interviews will not be conducted, members finalize their individual scores and submit them to the Contract Selection Officer (CO). If the selection committee determines it is necessary, interviews may be conducted. The selection committee will develop the format for the interviews which will be used to refine and fill in gaps from their preliminary scoring. Upon conclusion of the interviews, the committee will reconvene to discuss the interviews and finalize their individual scores.

Consultants are advised that the SCDOT may use all information provided by the consultant and information obtained from other sources in the assessment of past performance. Past performance information on contracts not listed by the consultant, or that of named subcontractors, may also be evaluated. SCDOT may contact references other than those identified by the consultant and information received may be used in the evaluation of the consultant's past performance. While SCDOT may elect to consider information obtained from other sources, the burden of providing current, accurate, and complete past performance information rests with the consultant. The criteria shown below will determine the consultant's qualification score.

The relative point value and selection criteria follow:

50%	Experience, qualifications, and technical competence of the staff proposed for the type of work required
25%	Past performance of the firm/team on similar type projects, responsiveness to the SCDOT, and the availability/readiness of the proposed staff
10%	Team makeup; ability of firm to perform all aspects of the services minimizing sub-consultants
5%	Familiarity of the firm/team with state transportation agency practices and procedures
10%	DBE utilization plan

* Note: An asterisk will be used to point out when special experience is essential within any of the above evaluation criterion. To address this, the consultant will need to provide specific projects to demonstrate this experience to include the client's name, telephone number and email address, along with the specific role of the consultant's team member.

G. FINAL SELECTION AND NOTIFICATION:

The Contract Selection Officer (CO) will compile the finalized scores, rank the firms, and send the list of ranked firms to the CPO with a recommendation to begin contract negotiations with the highest ranked firms. The CPO may approve entering into contract negotiations with the top ranked firms, or reject the selection altogether (in which case the project may be re-solicited). The intent is to enter into a contract with the top firms pending successful negotiations. All selected firms will be posted on the SCDOT website.

H. TIE BREAKER:

Final evaluation scores are determined from the average of the voting selection committee member's scores. Final scores will be rounded to the nearest whole number. In the event of a tie, the order of negotiation among the tied firms will be determined based on the value of contracts awarded during the previous 24-month period. The firm with the lowest dollar value of actual projects/tasks awarded during the period will be deemed the higher ranking firm of the tie.

I. INSTRUCTIONS TO CONSULTANTS:

SCDOT considers it a conflict of interest for a consultant to represent more than one party in relation to any given project regardless of which phases of the service are involved. If after award of the contract an organizational conflict of interest is determined to exist, SCDOT may, at its discretion, cancel the contract. If the proposer was aware of an organizational conflict of interest prior to the award of the contract and did not disclose the conflict to SCDOT, then SCDOT may terminate the contract for default. Consultant must complete and submit a DISCLOSURE OF POTENTIAL CONFLICT OF INTEREST CERTIFICATION certifying it does not have any financial or other interest in the outcome of the project, that it has no agreement, enforceable promise, or guarantee with any individual or company to provide any work on the project, that it does not have any association or professional or business relationships with anyone who has a financial interest in the outcome of the project, nor does anyone with a financial interest in the outcome of the project, exercise any control over the consultant's pay, employment, bonuses, or other area subject to external influence.

All changes in the team must be approved by SCDOT in writing.

KEY INDIVIDUAL CHANGES DURING SELECTION PROCESS:

(A) If during the selection process, the CO is notified by the consultant that key individuals are not available, action must be taken as follows: (1) if notified before scoring is complete, but after deadline for submittal, the consultant shall submit the **formal name (first, middle, maiden if applicable, and last)** and resume of a replacement having equal or better qualifications who would be replacing the key individual. The selection committee will score using the new key individual; (2) if notified after the scoring is complete, but prior to final approval, and the change involves the top scoring consultant, the consultant can submit the resume of the person having equal or better qualifications who will replace the key individual. The selection committee must then determine if the new person would affect the selection results. If not, the CO will notate the change and the justification for keeping the selection results. If it does, the selection committee will re-score the top consultant and change the selection; or (3) if a consultant notifies the CO of a key individual change any time after the final approval, the SCDOT must determine if the new key individual is acceptable. If not, the consultant will be rejected and the next highest qualified consultant selected.

(B) To qualify for SCDOT’s authorization to replace a key individual, the firm must submit the resume and SF 330 of the replacement, a written request explaining the reason for the change and must document that the proposed removal and replacement will provide services and/or management of the Project equal to or better than that submitted with the proposal. SCDOT will use the criteria specified in the advertisement and the qualification submitted by the firm to evaluate all requests. SCDOT reserves the right to reject the firm from further consideration if the new member is not approved.

KEY INDIVIDUAL CHANGES AFTER AWARD THIS SOLICITATION: All key individuals identified in the submitted proposal shall remain for the duration of the procurement process and if the Prime Consultant is awarded a contract, the duration of the contract. KEY INDIVIDUAL, STAFF AND TEAM CHANGES AFTER AWARD OF DESIGN BUILD CONTRACT: If the top ranking prime consultant has a sub-consultant or subcontractor listed that is a member of the successful design-build team, the prime consultant shall request approval from SCDOT to replace the sub-consultant or subcontractor only under the following conditions: (1) the prime consultant must remain, (2) a maximum of 25% of the original team may be substituted, and (3) key individuals cannot be substituted. If the selected prime consultant cannot meet the three (3) criteria above, the next highest ranked prime consultant will be reviewed for compliance. All changes in the team must be approved by SCDOT in writing.

DISCLOSURE OF POTENTIAL CONFLICT OF INTEREST CERTIFICATION

CONFLICT OF INTEREST: By submitting a proposal, proposer agrees that, if an organizational conflict of interest is discovered after the proposal is submitted, the proposer must make an immediate and full disclosure to SCDOT that includes a description of the action that the proposer has taken or proposes to take to avoid or mitigate such conflict. SCDOT considers it a conflict of interest for a consultant to represent more than one party in relation to any given project regardless of which phases of the service are involved. If after award of the contract an organizational conflict of interest is determined to exist, SCDOT may, at its discretion, cancel the contract. If the proposer was aware of an organizational conflict of interest prior to the award of the contract and did not disclose the conflict to SCDOT, then SCDOT may terminate the contract for default.

The Consultant by signing this disclosure, certifies it does not have any financial or other interest in the outcome of the project, that it has no agreement, enforceable promise, or guarantee with any individual or company to provide any work on the project, that it does not have any association or professional or business relationships with anyone who has a financial interest in the outcome of the project, nor does anyone with a financial interest in the outcome of the project, exercise any control over the consultant’s pay, employment, bonuses, or other area subject to external influence.

The Consultant, by signing this disclosure, further certifies that it is in compliance with the CURRENT AND FORMER SCDOT EMPLOYEES policy: To avoid the appearance of any real or perceived favoritism, unfair advantage, undue influence, or conflict of interest, a proposal will be disqualified that names, identifies, or includes in any way a current or former SCDOT employee serving in a management level position within 365 days of the submittal. No communication or appearance shall be made by such current or former employee with SCDOT on such proposal, or the proposal will be disqualified. In addition no current or former employee, who served in a management level position or above, may work on or invoice for services performed on a project within 365 days after their last day of employment with SCDOT. For the purposes of this bright line rule, “management level position” is defined as any SCDOT Pay Band 7 and above position, which includes, but is not limited to, Directors, Assistant Directors, District Engineering Administrators, District-level Engineers, Program Managers, Assistant Program Managers and Resident-level Engineers.
