## SC-T 1 – Methods of Sampling Coarse Aggregates

<http://www.scdot.org/business/materials-testprocedures.aspx>

This video covers the four methods outlined in SC-T 1: sample pad, stockpile, truck dump, and roadway. Each method is bookmarked in the timeline and is easily viewable on a mobile device for convenient reference in the field. If you have any questions about the procedures shown, contact the SCDOT Office of Materials and Research.

This and future videos can be found on the Materials and Research web page under *Test Procedures*.
