

SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION

Prequalified Styrene-Butadiene Latex
for Use on Thin Overlay Projects

The commercially available products listed below are prequalified for use in this overlay project. There may have been name changes and/or formulation change of the listed products since the original list appeared in FHWA-RD-78-35. Products from other producers will be considered for inclusion after all necessary documents as noted in the FHWA Report have been received and approved by the Department's Structural Materials Engineer.

<u>Supplier</u>	<u>Product</u>
*Trinseo LLC 1604 Bldg. Michigan Operations Midlands, MI 48667 Femi O. Kotoye 989-600-1438 Email: fokotoye@trinseo.com	Modifier A/NA
Latex Modifications, Inc. Attn: Mike Castle 504 East Valley Road Jasper, Tennessee 37347	BASF Styrofan 1186

The manufacturer shall document shipments to each SCDOT project. Certified test results for each Batch and/or Lot Number in the shipment shall be furnished to the Project Engineer.

*Formerly Styron LLC (Feb. 1, 2015)
