

**QUALIFIED PRODUCT POLICY
FOR
HOT APPLIED PREFORMED THERMOPLASTIC PAVEMENT MARKINGS**

Only materials from sources appearing on the Department's Qualified Products Listing (QPL) 47, "Hot Applied Preformed Thermoplastic Pavement Markings," as of the project's bid date shall be used for that project. A manufacturer may request inclusion on the QPL by furnishing the following information to the SCDOT contact below to verify that the marking meets the requirements of Section 627 of the *SCDOT Standard Specifications for Highway Construction*.

- (1) Appropriate information and satisfactory test results verifying the product has been tested by the AASHTO National Transportation Product Evaluation Program (NTPEP). Include the appropriate product numbers to indicate which test results apply.
- (2) A certified affidavit with test results from a recognized laboratory verifying that the material meets the requirements of the Department's specification.
- (3) Complete instructions for installing the material.
- (4) Complete identification of each type of material along with brand name and stock numbers to be used when purchasing.
- (5) The Safety Data Sheet for the product being furnished.
- (6) A notarized statement for each product to be reviewed stating the product meets all SCDOT specifications and that the manufacturer complies with the warranty terms of this specification.

Removal from QPL: The Department reserves the right to remove any material from the QPL if, in the opinion of the Department, the product is not performing satisfactorily under field conditions.
