

QUALIFIED PRODUCTS POLICY FOR
INLET STRUCTURE FILTERS
QUALIFIED PRODUCTS LIST 58

This policy covers Inlet Structure Filters for use as a temporary sediment control best management practice (BMP). Only use the products that appear on *Qualified Products List 58* by the SCDOT Office of Materials and Research, or otherwise accepted by the Engineer. Prior to inclusion on *SCDOT Qualified Product List 58* provide the Office of Materials and Research (OMR) with the following information from the manufacturer:

- Written quality control program conforming to the requirements of the specification.
- Documentation of laboratory testing that quantifies the performance of the product conforming to the requirements of the specification.
 - Independent qualified test facility name and location,
 - Signature of responsible person or party certifying the Inlet Structure Filter,
 - Inlet Structure Filter manufacturer,
 - Inlet Structure Filter name and model number,
 - Test ID, and
 - Test date.
- Certification that the Inlet Structure Filter performs to the minimum performance standards under the specific conditions stated in the specification.
- Instructions on the proper installation and maintenance of the Inlet Structure Filter.

Submit requests for qualification to:

G. Michael Lockman
Geotechnical Materials Engineer
