

## **SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION**

### **Qualified Product Policy 81 for Preformed Joint Filler Materials for Concrete Structures**

A manufacturer may request for a product to be included on the Department's Qualified Product List (QPL) 81 by furnishing a manufacturer's certification stating that the product meets the standards listed in Supplemental Specification "Concrete Structures – Preformed Joint Filler" along with test results from an independent AASHTO accredited lab.

*For products to be eligible for use on federal-aid projects, a certification certifying compliance with SCDOT Supplemental Specification "Source of Production of Iron and Steel Products and Construction Materials" (Jan. 1, 2023) must be provided in addition to all other requirements. Certification may be submitted to the contact below requesting prequalification.*

If at any time a product fails to perform satisfactorily it may be removed from the QPL. Should the formulation of the product change for any reason, the contact below should be notified and updated certifications and test results submitted.

Requests to qualify a product should be submitted to:

Caleb Gunter, P.E.  
Structural Materials Engineer
