

PROJECT BACKGROUND

Today's Meeting Covers Two Separate But Related Projects:

SC 642 Dorchester Road Corridor Improvements Project

Charleston County proposes to widen Dorchester Road from the Dorchester County line to Michaux Parkway. This would be a Charleston County project, funded by the 2016 Half-Cent Sales Tax Referendum.

This project includes the safety recommendations identified in SCDOT's Road Safety Audit.

SC 642 Dorchester Road Safety Audit

SCDOT originally identified Dorchester Road from the Dorchester County line to Kent Avenue for study as a potential safety project. A Road Safety Audit was completed, providing recommendations for safety improvements.

SCDOT is proposing a safety improvement project for Dorchester Road from Michaux Parkway to Kent Avenue. This would be an SCDOT project, funded through the Federal Highway Safety Improvement Program.
