LIST OF ACRONYMS

AAI	All Appropriate Inquiry
AST	Aboveground Storage Tank
ASTM	American Society of Testing and Materials (ASTM) International
CERCLA	Comprehensive Environmental Response, Compensation, and Liability Act
CREC	Controlled Recognized Environmental Condition
EDR	Environmental Data Resources, Inc.
EPA	United States Environmental Protection Agency
ESA	Environmental Site Assessment
FEMA	Federal Emergency Management Agency
FOI	Freedom of Information
HREC	Historical Recognized Environmental Condition
RCRA	Resource Conservation and Recovery Act
REC	Recognized Environmental Condition
SCDES	South Carolina Department of Environmental Services
SCDOT	South Carolina Department of Transportation
SHWS	State Hazardous Waste Site
SWF/LF	Solid Waste Facility/Landfill Facility
USGS	United States Geological Survey
UST	Underground Storage Tank

1. SUMMARY

F&ME Consultants, Inc. (FME) has performed a Limited Phase I Environmental Site Assessment (Limited Phase I ESA) relating to the road improvement project, identified as Interstate Highway 26 (I-26) Widening from Mile Markers (MM) 145 to 172 (Project Area). The Project Area includes approximately 26 miles of I-26 located in Orangeburg and Dorchester Counties, South Carolina. The Project Area is being assessed in order to facilitate road improvements, which include the addition of a third travel lane in each direction along I-26 to accommodate existing and future traffic and the modifications of Belleville Road (State Road S-38-29), Cameron Road/Russell Street, Gramling Road (State Road S-38-65), Old Elloree Road (State Road S-38-470), 4 Holes Road (State Road S-38-50), Five Chop Road (US Highway 301), Big Buck Boulevard, Log Cabin Road, Homestead Road, Arista Road (State Road S-38-692), Ebenezer Road (State Road S-38-92), Vance Road, Weathers Farm Road, Interstate Highway 95 (I-95), and Highway 15 interchanges to meet current design standards. This assessment of the Project Area was performed for the South Carolina Department of Transportation (SCDOT) and Michael Baker International, Incorporated (Michael Baker), collectively the "Users" of this report. The Project Area includes approximately 363 individual tracts of land. The Site Vicinity Map and Project Area Plans are found in Appendices A and B, respectively.

In general accordance with ASTM International (ASTM) E1527-21, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*, FME's Limited Phase I ESA included records review and site reconnaissance. FME reviewed reasonably ascertainable historical records, historical photographs, regulatory records databases, and other records made readily available. On March 26 and 27, 2025, FME photographed the Project Area during site reconnaissance. Site reconnaissance included observation of the present usage of portions of the parcels located within the Project Area from public thoroughfares (i.e., FME did not enter private property).

Findings. The EDR Regulatory Corridor Report identified 235 regulatory listings within a 2,000-foot search distance of the Project Area. However, these 235 regulatory records correspond to approximately 51 sites regulated/registered by State and Federal agencies, due to duplicate listings. Many of the regulatory sites were eliminated from consideration due to direction, distance, and/or relative elevation when compared to the Project Area. Eighteen (18) sites are discussed in more detail within this Report due to their potential to affect the Project Area.

Each of the regulatory sites, often listed within multiple databases, correspond to regulated industries such as Underground Storage Tank (UST), Leaking Underground Storage Tank (LUST), and EDR Historic Automotive (Hist Auto) sites, State Hazardous Waste Sites (SHWS), Voluntary Cleanup Contract (VCP) sites, Brownfield sites, Spill sites, and Environmental Protection Agency (EPA) Resource Conservation and Recovery Act Non-generator/ No Longer Regulated (RCRA-NonGen/NLR) sites.

Based on FME's review of this information and site reconnaissance, fourteen (14) Recognized Environmental Conditions (REC) and/or Controlled Recognized Environmental Conditions (CREC) were identified with known or potential environmental releases within the Project Area.

Opinions. FME's assessment determined that these noted findings of fourteen (14) REC/CREC pertain to fourteen (14) sites which may have adversely impacted the Project Area.

Conclusions. This assessment has revealed indications of one thirteen (13) REC and (1) CREC (i.e., total of fourteen (14) REC/CREC) in connection with the Project Area.

Recommendations. FME recommends Phase II Environmental Site Assessment (Phase II ESA) assessment activities be undertaken to determine if the thirteen (13) REC and one (1) CREC may have adversely impacted soil, groundwater, and/or soil vapor within the Project Area. The REC and CREC sites identified included the following parcels:

- Cooper Tools Orangeburg (REC-1).
- Loves (REC-2).
- Shell (REC-3).
- Former Quick Pantry 6 (REC-4).
- Quicktrip (REC-5).
- 7 Eleven (REC-6).
- Coastal Industrial Equipment (CREC-7).
- Former Orange Texaco (REC-8).
- Pilot (REC-9).
- Former Bowman Exxon (REC-10).
- Scotchman Exxon (REC-11).
- Southern Building Supply (REC-12).
- BP Exit 165 (REC-13).
- Four Holes Sales & Service (REC-14).

Environmental conditions noted for these sites indicate that the soils and/or groundwater of each of these sites may have been potentially impacted from petroleum spills, automotive uses, and/or LUST releases. However, these sites were identified due to the size of the current Project Area. Proposed Phase II ESA work may be further refined in scope based on a future modified/refined Project Area.

Additionally, FME also recommends the use of ground penetrating radar (GPR) on eleven (11) of the fourteen (14) identified REC/CREC to determine if buried UST or piping is located within the Project Area. Sites identified requiring GPR are associated with REC-2, REC-3, REC-4, REC-5, REC-8, REC-9, REC-10, REC-11, REC-12, REC-13, and REC-14. Please note that this recommendation is based on the current size of the Project Area provided by the Users, located within Appendix B, Figures 2 through 10 of this Limited Phase I ESA Report.

The Users should consider how potential future changes to the Project Area will affect the number of REC/CREC identified within this Limited Phase I ESA Report. In the future, if the Project Area becomes more refined (e.g., changes in size, shape, number of parcels affected, extent of new right-of-way, etc.), this may also change the number of REC/CREC that require additional assessment and/or GPR.

2. INTRODUCTION

2.1 Purpose

The purpose of this Limited Phase I ESA was to identify, to the extent feasible and in general accordance with ASTM E1527-21, Recognized Environmental Conditions in connection with the Project Area.

ASTM E1527-21 defines a Recognized Environmental Condition (REC) as: (1) the presence of hazardous substances or petroleum products in, on, or at the Project Area due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the Project Area due to a release or likely release to the environment; or, (3) the presence of hazardous substances or petroleum products in, on, or at the Project Area under conditions that pose a material threat of a future release to the environment.

ASTM E1527-21 defines a Controlled Recognized Environmental Condition (CREC) as a REC affecting the Project Area that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations).

ASTM E1527-21 defines a Historical Recognized Environmental Condition (HREC) as a previous release of hazardous substances or petroleum products affecting the Project Area that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the Project Area to any controls (for example, activity and use limitations or other property use limitations). A historical recognized environmental condition is not a REC.

ASTM E1527-21 defines a *de minimis* condition as a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. A condition determined to be a *de minimis* condition is not a REC nor a CREC.

2.2 Detailed Scope of Services

Pursuant to an agreement between the Users and FME, and in general accordance with ASTM E1527-21, FME's Limited Phase I ESA consisted of: a physical site reconnaissance of the portions of the parcels found within the Project Area from public thoroughfares; review of reasonably ascertainable South Carolina Department of Environmental Control (SCDES) records for the Project Area, as well as records pertaining to parcels within the minimum search distances as defined in ASTM E1527-21; where applicable, a review of available current and past aerial photographs for the Project Area and adjoining parcels; Environmental Data Resources, Inc. (EDR) corridor regulatory database report for the Project Area (Corridor Report); a report written using the format recommended in ASTM E1527-21; and, recommendations as to the need for additional investigations where applicable.

This assessment is consistent with good commercial and customary practice as defined in the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) for the purposes of the Landowner Liability Protection only for the portions of the parcels located within the Project Area.

2.3 Significant Assumptions

FME has made the following assumptions in preparing the scope for this Limited Phase I ESA.

- Data gathered from public information sources (i.e., libraries and public regulatory agencies) is accurate and reliable.

- Site operations reflect site conditions relative to potential releases and no intentional concealment of environmental conditions or releases has occurred.

- Any interview information is directly reported as gathered by the assessor and is limited by the accuracy of the interviewee's recollection and experience.

- Published geologic information and site observations made by the Environmental Professional are utilized to estimate likely surficial and subsurface contaminant migration pathways (i.e., groundwater, soil, and vapor). These estimates are limited in accuracy and generally cross-referenced with existing information about similar sites and environmental releases in the area.

- Pursuant to an agreed upon scope of work, site reconnaissance was only performed on the portions of the parcels located within the Project Area and viewed from public thoroughfares. The limits of site reconnaissance were agreed to by the Users. Likewise, interior of buildings located within the Project Area were not inspected or accessed.

- Similarly, deeds are typically provided by the User(s), however, pursuant to the agreed upon scope of work, deeds are not included in this report.

2.4 Limitations and Exceptions

This Limited Phase I ESA does not address all possible environmental liabilities that the Users may need to consider in the context of a commercial real estate transaction. Asbestos-containing building materials, emerging contaminants, biological agents, cultural and historical resources, ecological resources, endangered species, health and safety, indoor air quality, industrial hygiene, lead-based paint, lead in drinking water, mold, radon, regulatory compliance, wetlands, and Federal Emergency Management Agency (FEMA) flood zones are investigative areas not included in this Limited Phase I ESA.

2.4.1 Site Reconnaissance

The findings of this report are applicable, and representative of conditions encountered at the Project Area on the date of the site reconnaissance and may not represent conditions

at a later date. Where portions of the Project Area were inaccessible, or access was limited, FME renders no opinion as to the presence or absence of potential environmental concerns located indirectly or directly in the Project Area, adjoining parcels, or contents of onsite/offsite building structures.

2.4.2 Records Review

The review of public records was limited to that information which was available to FME at the time that this report was prepared. To the extent that public files were missing, incomplete, or not provided, FME is not responsible for the completeness of public files. If an overlap in the information provided by the various officials, other parties, or agencies is noted, FME did not attempt to verify the accuracy or completeness of information received and incorporated into this Limited Phase I ESA. No warranty or guarantee, either stated or implied, is given concerning the authenticity of the various agencies and present or past owners or operators of the Project Area or the completeness of federal, state, or local records.

If data gaps concerning the Project Area and adjoining parcels are identified, regardless of cause (i.e., intentional, or unintentional withholding or loss of information), FME will attempt to comment on the significance of these data gaps. However, FME cannot and does not warrant or guarantee that significant events, releases, or negative conditions did not occur during periods of time for which no records are available.

2.4.3 Findings, Opinions, Conclusions, and Recommendations

The findings, opinions, and conclusions of this Limited Phase I ESA are based, in part, upon the information obtained from the records made available by others and from the site reconnaissance. If variations or latent conditions arise or become evident later, it may be necessary to re-evaluate the findings and conclusions presented in this Limited Phase I ESA.

During the Limited Phase I ESA, FME did not perform any collection, sampling, or laboratory analysis of materials (e.g., soil, water, air, building materials). Therefore, if the conclusions and recommendations contained herein are based in part upon laboratory data found during our research, then the conclusions and recommendations are contingent upon the validity of such data and the laboratory that performed the analyses and prepared the analytical data report. The potential for vapor encroachment or intrusion is also considered relative to onsite and offsite sources, based on the experience of the Environmental Professional.

2.5 User Reliance

This Limited Phase I ESA has been prepared exclusively for the Users and shall not be disseminated in whole or in part to other parties without prior consent from FME.

3. SITE DESCRIPTION

3.1 Location and Legal Description

The Project Area includes approximately 26 miles of I-26 within Orangeburg and Dorchester Counties, South Carolina. The Project Area includes approximately 363 individual tax map parcels located adjacent to I-26. The parcels within the Project Area were selected based upon the preliminary road improvement project limits provided by the Users in order to assess lands where road improvements are planned or where rights-of-way will be expanded. Uses of parcels within the Project Area vary from residential homes, manufacturing facilities, gas stations, and agricultural uses. Three (3) small freshwater creeks (i.e., Little Bull Creek, Mill Branch, and Cow Castle Creek) and wooded lands are also included within the Project Area. Therefore, the parcels within the Project Area are considered mixed-use (i.e., agricultural, residential, commercial, industrial, etc.). Refer to Appendix B for the general layout of the Project Area, depicted in red. Portions of numerous secondary roadways are also located within the Project Area in Orangeburg and Dorchester Counties and include:

- Interstate Highway 26 (I-26)
    - Eastrest Lane (Southbound Rest Area)
    - Northbound Rest Area driveways
- Belleville Road (State Road S-38-29)
    - Citadel Road
        - Regional Parkway
    - Meadowlark Street NE
    - Till Road
- Cameron Road/Russell Street
    - Assembly Hall Way
        - Gussy Drive
    - Monticello Road
        - Rugby Road
    - Glenzell Road (north)
        - Legendary Road
- Gramling Road (State Road S-38-65)
    - Halifax Circle
    - Devine Court
    - Cloverdale Lane
    - Whitford Stage Road
    - Glenzell Road (south)
        - Progressive Lane
        - Fortune Road
- Old Elloree Road (State Road S-38-470)
- 4 Holes Road (State Road S-38-50)
    - Boone Road
    - Roquemore Drive

- Five Chop Road (US Highway 301)
    - All American Lane
    - Hooligan Way
    - Millenium Drive (north)
    - Firefighter Lane (north)
- Big Buck Boulevard
    - Millenium Drive (south)
    - Norwood Street
    - Firefighter Lane (south)
- Log Cabin Road
    - Timrod Lane
- Homestead Road
    - Falls Drive
- Arista Road (State Road S-38-692)
    - Jessroe Lane
    - Midside Road
    - Czura Road
- Ebenezer Road (State Road S-38-92)
    - Winter Creek Road
        - Jenkins Road
    - Automobile Boulevard
    - Landsdowne Road (north)
- Vance Road (South Carolina Highway 210)
    - Landsdowne Road (south)
    - Arrowhead Road
    - State Road S-38-2052
        - Wamer Road
- State Road S-38-1302
- Interstate Highway 95 (I-95)
- Weathers Farm Road
    - Racoon Road
    - Twisted Tree Road
    - Bluff Road
    - Deer Ridge Trail

3.2 Site and Vicinity General Characteristics

The Project Area is located within a rural area which includes varied uses. The Project Area is accessible via roadways generally described within Section 3.1 above. Parcels surrounding the Project Area have similar mixed uses. Please refer to the Site Vicinity Map included as Appendix A and the Project Area Plans included as Appendix B.

The Project Area is located approximately 100 to 325 feet above mean sea level (MSL). This information was obtained from the 2020 United States Geological Survey's (USGS) 7.5 Minute Topographic Map obtained from Environmental Data Resources (EDR).

3.3 Geologic and Hydrogeologic Conditions

The Project Area is located within the Inner and Outer Coastal Plain Physiographic Provinces in Orangeburg and Dorchester Counties, South Carolina. The geologic formations within the Project Area change multiple times over the course of the 26-mile Project Area. Beginning at I-26 near Orangeburg at MM 145 and traveling east towards Charleston on I-26 to MM 172, the following formations are encountered.

MM 145 to MM 147 – The Neogene strata (undifferentiated) runs the distance from MM 145 to approximately MM 147. The Neogene strata consist of poorly sorted clayey sand and gravel deposited in a fluvial environment. As the name implies, this formation is Neogene in age.

MM 147 to MM 149 – Traveling east the next formation encountered would be the Huber/Lisbon/Barnwell Formations from MM 147 to MM 149. The Huber/Lisbon/Barnwell Formations consist mostly of poorly or well sorted sand, clay, and carbonates deposited in a delta dominated fluvial and open-marine environments and is Eocene in age.

MM 149 to MM 169 – The Duplin Formation runs the distance from MM 149 to approximately MM 169. The Duplin beds consist of sands, sandy and silty clays, and very shelly sands that frequently overlie a phosphatic basal conglomerate and the formation is Pliocene in age.

MM 169 to MM 172 – The Bear Bluff Formation ranges from MM 169 to MM 172. The Bear Bluff Formation consists of gray to cream fossiliferous, coarse-grained calcareous sand, and sandy limestone. The Bear Bluff Formation is Pliocene in age.

The Project Area is located within the catchment area for the tertiary limestone and sand aquifer system. The surface water from the Project Area generally flows into the Edisto River Basin.

According to the Soil Survey published by the United States Department of Agriculture (USDA), the predominant surficial soils within the Project Area are Goldsboro sandy loam, Lynchburg fine sandy loam, Noboco loamy sand, and Rains sandy loam. Depending on the location within the Project Area, depth to groundwater ranges from approximately 0 to 50 feet below ground surface (bgs). However, depth to groundwater may be affected by precipitation, river flood elevation, and should not be considered static. Annual precipitation typically ranges from 37 to 60 inches.

3.4 Current Use of the Project Area

The Project Area consists of portions of approximately 363 individual tax map parcels, located within the proposed rights-of-way on I-26. Uses of parcels within the Project Area, as noted above in Sections 3.1 and 3.2, generally include mixed-uses. Past uses of the Project Area are discussed in Section 3.5 below.

3.5 Current Uses of the Adjoining Parcels

Current uses of parcels adjoining the Project Area are similar to the uses within the Project Area. The proposed roadways and rights-of-way within the Project Area include only a portion of the

parcels seen in Appendix B, Figure 2 (i.e., a small portion of each parcel is slated to become the new right-of-way). Therefore, for the purpose of this report, adjoining parcels also include the remaining portions of the larger, parent parcels within the Project Area. Table 1 below is a summary of parcels adjoining the Project Area.

Table 1. Adjoining Project Area and Facility Description

LOCATION RELATIVE TO THE PROJECT AREA	GENERAL ADJOINING PROJECT AREA/FACILITY DESCRIPTION
North	Remaining portions of parcels located within the Project Area. Residential homes, wooded lands, and farmland beyond.
South	Remaining portions of parcels located within the Project Area. Residential homes, wooded land, and farmland beyond.
East	Remaining portions of parcels located within the Project Area. I-26 and secondary roadways beyond.
West	Remaining portions of parcels located within the Project Area. I-26 and secondary roadways beyond.

4. USER PROVIDED INFORMATION

4.1 Title Records

As per ASTM E1527-21, it is the responsibility of the Users to provide the chain of ownership information. However, due to an agreed upon scope of work, deed information was not provided by the Users and was not reviewed as part of this Limited Phase I ESA.

4.2 Environmental Liens or Activity and Use Limitations

Environmental liens as well as activity and use limitations are often documented in deeds for affected parcels. When necessary, liens resulting from delinquent financial responsibilities and/or land use restrictions are memorialized in deeds for these affected parcels. However, per an agreed upon scope of work, deed information was not provided by the Users and was not reviewed as part of this Limited Phase I ESA.

5. RECORDS REVIEW

5.1 Standard Environmental Record Sources

FME utilized Environmental Data Resources, Inc. (EDR) to complete a database search of federal, state, local, and tribal environmental records for the Project Area, dated February 20, 2025. It is worth noting that due to the size and length of the Project Area, the minimum search distances stipulated by ASTM were decreased to a 2,000-foot search distance in general accordance with ASTM E1527-21. Additionally, FME requested information from the SCDES Freedom of Information (FOI) office and Orangeburg County FOI office pertaining to records related to the Project Area and parcels within the search distance. Note the Dorchester County FOI office was

not contacted since only approximately 1.75 miles (i.e., from I-95 to MM 172) and no regulatory sites were identified or observed within that portion of the Project Area. FME requested the following information.

- Information pertaining to the removal or installation of aboveground storage tanks (ASTs) and USTs.
- Issuance of any environmentally related licenses, permits, and well records.
- Issuance of any licenses, permits, or complaints against to store hazardous substances and/or petroleum products on the subject properties and/or adjoining parcels, and any actions taken.
- Issuance of any licenses, permits, or complaints regarding waste disposal on the Project Area and/or adjoining parcels.
- Brownfields site on the Project Area and/or adjoining parcels.

FME routinely requests information from the SCDES to obtain environmental records. Occasionally, conditions arise where this process proves inadequate to meet the needs of our client (i.e., parcels with no address, quick turnaround on report, etc.). Therefore, EDR is utilized as a primary records resource to provide a timely response to the Users. Requests are submitted to SCDES at the beginning of the Limited Phase I ESA review, using sites identified by EDR. If FME receives a response from SCDES following the completion of a Limited Phase I ESA report which changes the findings of the report, FME will notify the Users upon receipt of such information. Refer to Appendix E for copies of the noted correspondence.

The EDR Corridor Report identified 235 regulatory listings within the 2,000-foot search distance and databases. However, these 235 regulatory records correspond to approximately 51 sites regulated/registered by State and Federal agencies, due to duplicate listings. It should be noted that while each listing was evaluated by FME, due to the number of regulatory sites, only the regulatory sites that are suspected of possibly impacting the Project Area are discussed here. Some of the listings in the database report were contained in more than one database. If a regulatory site is not discussed here, it is FME's opinion that the site is unlikely to adversely impact the Project Area. Many of the regulatory sites were eliminated from consideration due to direction, distance, and/or relative elevation when compared to the Project Area.

It should be noted that, "No Further Action" (NFA) status for a UST release on a given site often indicates that the identification of the site as a CREC might be appropriate. However, many sites with NFA status discussed below were identified more appropriately as a REC. For the purpose of this report, identification as a REC is primarily due to the current size of the Project Area which often includes a portion of structures such as gas station fuel islands, tank farms, and in some instances entire gas station sites. Similarly, identification as a REC may also be due to reasons such as age of operation, spill(s), existing and/or former UST, equipment, and underground piping located within the Project Area.

The following eighteen (18) sites (i.e., sixteen (16) within Section 5.1.1 and two (2) within Section 5.1.2), which have the potential to affect the Project Area, are discussed below in more detail.

5.1.1 Underground Storage Tank/Leaking Underground Storage Tank Sites/Spills

The EDR database search identified multiple sites corresponding to the following environmental regulatory programs listed below, within the 2,000-foot search distance.

- UST – Underground Storage Tank.
- LUST – Leaking Underground Storage Tank.
- SPILLS – The Spills Database.
- FINDS – Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail.
- GWCI – Groundwater Contamination Inventory Cases. Any site with groundwater contamination over a federal MCL.
- ECHO – Integrated Enforcement and Compliance information database.
- ICIS – Incident Compliance Information System.
- RGA LUST – EDR Recovered Government Archive LUST database, list of LUST incidents derived from historical databases and includes many records that no longer appear in current lists.
- EDR Hist Auto – Historic automotive site.
- ERNS – Emergency Response Notification System.
- HMIRS – Hazardous Materials Incident Report System contains material spill incidents reported to the DOT.
- UIC – Underground Injection Wells location listing.
- GWT – Groundwater Management Tracking Information. Active sites reflect the list of current open releases at AST, pipelines, spills, heating oil tanks, or otherwise non-permitted petroleum releases.
- RCR – State Registry of Conditional Remedies.
- SHWS – State Hazardous Waste Site.
- RCR – State Registry of Conditional Remedies.
- AUL – Sites with institutional controls in place.
- VCP – State Voluntary Cleanup Site.
- BROWNFIELDS – Component of the State VCP allows a non-responsible party to acquire a contaminated property with State Superfund liability protection for existing contamination by agreeing to perform an environmental assessment and/or remediation.
- ALLSITES – The SCDHEC local lists of hazardous waste and/or contaminated sites.
- SHWS – State Hazardous Waste Site.

The following sixteen (16) sites, with associated regulated information, are discussed below in more detail.

- Triangle Tool Group / BRN Sleep Products, LLC / Cooper Tools Orangeburg-Closed (SCDES UST ID # 06847) [REC 1]
  Cameron Road / "Hwy 33 at I-26"
  Orangeburg, SC
  Orangeburg County Parcel #0208-00-01-023.000

  The Triangle Tool Group / BRN Sleep Products, LLC / Cooper Tools Orangeburg-Closed is a UST/LUST/ FINDS/ECHO site located within the Project Area. Based only on observations made at the time site reconnaissance, this site appeared to be a vacant BRN Sleep Products, LLC site and for simplicity this site will be referred to as Cooper Tools Orangeburg. According to EDR regulatory information four (4) USTs are associated with Cooper Tools Orangeburg, each of the USTs associated with this site were removed in 1993. One (1) confirmed UST release occurred on this site in 1989. NFA status was issued by SCDES for the confirmed UST release in 2003. However, while Cooper Tools Orangeburg is not listed as a GWCI site, according to EDR regulatory information, the groundwater flow direction is to the east, toward the Project Area.

  Due to the age of operation (i.e., operations predating modern UST regulations) and groundwater flow direction, this UST/LUST/ FINDS/ECHO site is considered **REC-1** in connection with the Project Area.

- Loves Travel Stop 326 / 3205 Five Chop Road / 154 A Auto Center / Release Incident (SCDES UST ID # 19082) [REC 2]
  3205 and 3211 Five Chop Road
  Orangeburg, SC
  Orangeburg County Parcel #0236-00-06-001.000 and 0236-00-06-005.000

  The Loves Travel Stop 326 / 3205 Five Chop Road / 154 A Auto Center is a UST/LUST/ERNS/HMIRS/RGA LUST/FINDS/SPILLS/EDR Hist Auto site located within the Project Area. Based on online Orangeburg County GIS information, 3205 and 3211 Five Chop Road are associated with Loves Travel Stop 326 / 3205 Five Chop Road / 154 A Auto Center. During site reconnaissance, this site was observed to be an operating Loves gas station site and for simplicity this site will be referred to as Loves. Six (6) USTs are "currently in use" by Loves. According to the SCDES UST Registry, one (1) confirmed UST release occurred in 2011 and two (2) unconfirmed UST releases occurred in 2021 and 2024. "No Further Action" (NFA) status was issued by SCDES for the confirmed release and each of the unconfirmed releases within the year of each of the releases. This is a likely indication that the release(s) were of a minor nature. EDR regulatory information identified Loves as a EDR Hist Auto site from 2000 to 2014. This also corresponds to historic aerial photographs that indicate this facility had been constructed sometime between 1995 and 2006.

  Loves is also identified as a SPILL/ERNS/HMIRS site within the Project Area. Based on spills information, Loves was the site of four (4) spills:

- A 60-gallon diesel spill occurred in 2014.
- A 200-gallon sulfuric acid spill of unknown quantity in 2015.
- A 15-gallon of diesel spill in 2016.
- A fuel spill of unknown quantity in in 2024. According to EDR regulatory information the spill was documented as, "The caller discovered a large fuel spill that is impacting a nearby waterway."

While NFA has been issued by SCDES for the confirmed and unconfirmed UST releases, multiple surface spills have also occurred on this site. Based on EDR regulatory information, this UST/LUST/ERNS/HMIRS/RGA LUST/FINDS/SPILLS/EDR Hist Auto site is considered REC-2 in connection with the Project Area, due to the current Project Area limits. Encountering existing UST, equipment, and underground piping during proposed roadwork must be considered if all or a portion of this parcel is acquired.

- Corner Pantry 116 / Corner Pantry, Inc. / Quick Pantry 101 / Quick Pantry 116 / Shell (SCDES UST ID # 10320) [REC 3]
  3229 Five Chop Road
  Orangeburg, SC
  Orangeburg County Parcel #0236-00-06-004.000

  The Corner Pantry 116 / Corner Pantry, Inc. / Quick Pantry 101 / Quick Pantry 116 is a UST/LUST/RGA LUST/EDR Hist Auto/ICIS/FINDS/ECHO site located within the Project Area. During site reconnaissance, this site was observed to be an operating Shell gas station and for simplicity this site will be referred to as Shell. Five (5) UST are associated with this site. Four (4) are "currently in use." One (1) UST was removed in 2004. According to the SCDES UST Registry, SCDES determined that the four (4) UST were in compliance based on an inspection dated January 31, 2025.

  According to the SCDES UST Registry, three (3) confirmed releases occurred in 1991, 2013, and 2021. Additionally, an unconfirmed release occurred in 2011. NFA status was issued by SCDES for the unconfirmed release in 2011. However, NFA status has not yet been issued by SCDES for the three (3) confirmed releases.

  Due to the lack of NFA status, location within the Project Area, and age of operation, this UST/LUST/RGA LUST/EDR Hist Auto/ICIS/FINDS/ECHO site is considered REC-3 in connection with the Project Area. Additionally, encountering existing UST, equipment, and underground piping during proposed roadwork must be considered if all or a portion of this parcel is acquired.

- A 1 Exxon / Brabham Oil Company, Inc. / Quick Pantry 6 (SCDES UST ID # 06979 and 07019) [REC 4]
  "I-26 & 301" / 3224 Five Chop Road
  Orangeburg, SC
  Orangeburg County Parcel #0236-00-07-002.000

  The A 1 Exxon / Brabham Oil Company, Inc. / Quick Pantry 6 is a UST/LUST/RGA LUST/FINDS/ICIS/ECHO/GWCI/UIC site located within the Project Area. Two (2) SCDES UST ID numbers are associated with this site, #06979 and #07019. During site reconnaissance this site was observed to be a vacant former gas station site and for simplicity this site will be referred to as Former Quick Pantry 6. Information associated with these two (2) SCDES UST ID numbers is discussed below.

  SCDES UST ID # 06979 – Four (4) USTs are associated with Quick Pantry 6. Each of the four (4) UST associated with this UST ID remain on this site and are identified as "Permanently Out Of Service." According to the SCDES UST Registry, SCDES determined that Quick Pantry 6 was in compliance based on an inspection conducted in 2024. Three (3) confirmed releases are associated with this UST/LUST site reported in 1993, 2002, and 2010. Additionally, three (3) unconfirmed releases occurred in 2001, 2009, and 2015. NFA status was issued by SCDES for each of the confirmed and unconfirmed releases, with the exception of the 1993 confirmed release. According to EDR regulatory information, the groundwater flow direction is to the northeast, toward the Project Area. The SCDES UST Registry does not indicate that groundwater contamination at this site is greater than the US Environmental Protection Agency (EPA) maximum contamination levels (MCL). However, A 1 Exxon / Brabham Oil Company, Inc. / Quick Pantry 6 is identified as a GWCI site, which is a likely indication groundwater contamination at this site is greater than MCL.

  SCDES UST ID # 07019 – Three (3) USTs are associated with this UST ID number, identified as A 1 Exxon / Brabham Oil Company, Inc. According to the SCDES UST Registry, each of the three (3) UST associated with this UST ID were removed from the site in 1987. However, four (4) unconfirmed releases are associated with this site in 1991, 1993, 1995, and 1999. NFA status was issued by SCDES for each of the unconfirmed releases.

  Due to the lack of NFA status for the 1993 confirmed release, listing as a GWCI site, location within the Project Area, age of operation, and groundwater flow direction to the northeast toward the Project Area, this UST/LUST/RGA LUST/FINDS/ICIS/ECHO/GWCI/UIC site is considered **REC-4** in connection with the Project Area. Additionally, due to the current Project Area limits, encountering existing UST, equipment, and underground piping during proposed roadwork must be considered if all or a portion of this parcel is acquired.

- Quicktrip 1181TC (SCDES UST ID # 20012) [REC 5]
  111 Millenium Drive
  Orangeburg, SC
  Orangeburg County Parcel #0236-00-07-003.000

  The Quicktrip 1181TC is a UST/HMIRS site located within the Project Area. During site reconnaissance, this site was observed to be an operating Quicktrip gas station site and for simplicity this site will be referred to as Quicktrip. According EDR regulatory information, nine (9) UST are "currently in use" by Quicktrip. According to the SCDES UST Registry, no confirmed or unconfirmed UST release(s) are associated with this site. EDR regulatory information identified Quicktrip located at 111 Millenium Drive as an HMIRS site due to a 10-gallon diesel spill that occurred in 2023.

  While no confirmed releases have been reported for this UST site, much of the gas station structures and tank farm are located within the current Project Area. Therefore, this is considered a **REC-5** in connection with the Project Area, due to the current Project Area limits. Encountering existing UST, equipment, and underground piping during proposed roadwork must be considered if all or a portion of this parcel is acquired.

- 7 Eleven 41376 / Wendy's / Jimmy's Truck Stop (SCDES UST ID # 20074) [REC 6]
  3457 and 3467 Five Chop Road
  Orangeburg, SC
  Orangeburg County Parcel # 0236-00-05-014.000, 0236-00-05-023.000, and 0236-00-05-025.000

  The 7 Eleven 41376 is a UST site located within the Project Area. According to Orangeburg County GIS, two street addresses are associated with this UST site, 3457 & 3467 Five Chop Road (i.e., two addresses on three (3) parcels). During site reconnaissance, this site was observed to be an operating 7 Eleven gas station site and for simplicity this site will be referred to as 7 Eleven. Three (3) UST are "currently in use." According to the SCDES UST Registry, SCDES determined that the three (3) UST were in compliance based on an inspection dated January 31, 2025. No confirmed UST releases were listed on the SCDES UST Registry.

  Historic aerial photographs from 1964 to 2019 indicate that a former gas station was likely located at 3467 Five Chop Road. However, EDR regulatory information did not indicate that a former gas station was located at 3467 Five Chop Road (i.e., lack of regulatory documentation for a likely historic gas station). The SCDES UST Registry identified Orange Texaco located at "301 & I 26" and Jimmy's Truck Stop "Near Int [sic] of I-26 on US 301N" was identified as a SHWS within EDR regulatory information.

  Based on a review of aerial photographs two (2) gas stations were located east of I-26. Note that the current 7 Eleven gas station was constructed much later. While the exact location of Orange Texaco and Jimmy's Truck Stop could not be determined, these sites were likely located at 3467 Five Chop Road (i.e., on the north side of Five

Chop Road) and 3408 Five Chop Road (i.e., on the south side of Five Chop Road) within the Project Area. Refer to the discussion of Orange Texaco below. However, a likely former gas station was located at each of these addresses. During site reconnaissance, each of these sites were observed to be a former gas station sites.

While no confirmed UST releases have been reported for this 7 Eleven, much of the gas station structures and tank farm are within the current Project Area. Additionally, a former gas station was located at 3467 Five Chop Road, predating modern UST regulations. Therefore, this site is considered a **REC-6** in connection with the Project Area, due to the current Project Area limits. Encountering existing UST, equipment, and underground piping during proposed roadwork must be considered if all or a portion of this parcel is acquired.

- **Midway Truck Stop / 301 Truck Stop, Inc. / Coastal Industrial Equipment (SCDES UST ID # 19254) [CREC 7]**
  3530 and 3538 Five Chop Road
  Orangeburg, SC
  Orangeburg County Parcel #0236-00-08-030.000

  The Midway Truck Stop / 301 Truck Stop, Inc. is a AST/UST/LUST/RGA LUST/GWCI/EDR Hist Auto/GWT site located 125 feet east of the Project Area. Based on online Orangeburg County GIS information, 3530 and 3538 Five Chop Road are associated with Midway Truck Stop / 301 Truck Stop, Inc. During site reconnaissance, this site was observed to be Coastal Industrial Equipment and for simplicity this site will be referred to as Coastal Industrial Equipment. According to the SCDES UST Registry, five (5) UST associated with this site were "abandoned" in 2006. However, the SCDES UST Registry does not indicate that these UST have been removed (i.e., UST may remain on this site unused/abandoned). One (1) confirmed UST release is associated with this AST/UST/LUST/RGA LUST/GWCI/EDR Hist Auto/GWT site reported in 2006. NFA status was issued by SCDES for the confirmed release in 2008. The SCDES UST Registry does not indicate that groundwater contamination at this site is greater than the EPA MCL. However, Coastal Industrial Equipment is identified as a GWCI site, which is a likely indication groundwater contamination at this site is greater than MCL. According to EDR regulatory information, two (2) AST totaling 20,000 gallons are also associated with this site. Also, according to EDR regulatory information, this AST/UST/LUST/RGA LUST/GWCI/EDR Hist Auto/GWT likely operated from 1997 to 2011.

  Due to the close proximity of Coastal Industrial Equipment adjacent to the Project Area, age of operation, and likely presence of groundwater contamination, this AST/UST/LUST/RGA LUST/GWCI/EDR Hist Auto/GWT site is considered **CREC-7** in connection with the Project Area.

- Orange Texaco (SCDES UST ID # 07016 and 11094) [REC 8]
  "301 & I 26" (i.e., possible former gas station located at 3408 Five Chop Road)
  Orangeburg, SC
  Orangeburg County Parcel #0236-00-08-022.000

  Orange Texaco was not listed as a regulated UST site within EDR regulatory information. However, the SCDES UST Registry identified Orange Texaco "301 & I 26." While the exact location of this site could not be determined, Orange Texaco may have been located at 3408 Five Chop Road within the Project Area based on aerial photographs. During site reconnaissance, this site was observed to be a former gas station site and for simplicity this site will be referred to as Former Orange Texaco. Historic aerial photographs from 1974 to 2019 indicate that a former gas station was likely located at 3408 Five Chop Road. Two (2) SCDES UST ID numbers are associated with Former Orange Texaco. Information associated with these two (2) SCDES UST ID numbers is discussed below. Two (2) SCDES UST ID numbers are associated with this site, #07016 and #11094.

  SCDES UST ID # 07016 – Four (4) USTs are associated with this SCDES UST ID. According to the SCDES UST Registry, each of the four (4) UST were removed in 1988. No known UST release(s) were identified on the SCDES UST Registry associated with this ID number.

  SCDES UST ID # 11094 – One (1) UST is associated with this SCDES UST ID. According to the SCDES UST Registry, a 6,000-gallon diesel UST was removed from the site. However, the date of removal is unknown. No known release(s) were identified on the SCDES UST Registry associated with this UST ID.

  Due to the age of operation and UST removal predating modern UST regulations, this UST site is considered REC-8 in connection with the Project Area. While UST are said to be removed, due to the age of operation of this former UST site, which predates modern UST regulations, and current Project Area limits, equipment and underground piping could be encountered during proposed roadwork. Therefore, encountering existing UST, equipment, and underground piping during proposed roadwork must be considered if all or a portion of this parcel is acquired.

- Pilot Travel Centers / Speedway 8446 / UST / Pilot Travel Center 060 (SCDES UST ID # 10290) [REC 9]
  2064 Homestead Road
  Bowman, SC
  Orangeburg County Parcel #0258-00-01-006.000

  The Pilot Travel Centers / Speedway 8446 / Pilot Travel Center 060 is a UST/LUST/RGA LUST/EDR Hist Auto/RCR/FINDS/SPILL site located within the Project Area. During site reconnaissance, this site was observed to be an operating Pilot gas station site and for simplicity this site will be referred to as Pilot. According to the EDR regulatory information, nine (9) UST are associated with this site and are "currently in use."

According to the SCDES UST Registry, no UST have been removed from this site. Six (6) confirmed UST releases are associated with this UST/LUST RGA LUST/EDR Hist Auto/RCR/FINDS/SPILL site, reported in 1994, 2000, 2002, 2007, 2014, and 2022. One (1) unconfirmed UST release occurred in 2010. While NFA status was issued by SCDES for five (5) of the confirmed releases as well as the one (1) unconfirmed release, an NFA was not issued for the 2014 confirmed release. Further, the 2007 confirmed release was granted conditional NFA status. The SCDES UST Registry indicates that groundwater contamination at this site is greater than the EPA MCL for the 2007 confirmed release. According to the EDR regulatory information, the groundwater flow direction on this site is to the west, toward the Project Area.

Pilot was also identified as a SPILL site. Based on spills information, Pilot was the site of three (3) spills:

- A 200-gallon diesel spill in 2007.
- A 20-gallon unidentified substance spill in February 2013.
- A 20-gallon diesel spill in May 2013.

Due to the lack of NFA status for the 2014 confirmed UST release and the conditional NFA for the 2007 confirmed UST release which impacted groundwater with contamination greater than EPA MCL, this UST/LUST/RGA LUST/EDR Hist Auto/RCR/FINDS/SPILL site is considered **REC-9** in connection with the Project Area. Additionally, due to the current Project Area limits, encountering existing UST, equipment, and underground piping during proposed roadwork must be considered if all or a portion of this parcel is acquired.

- Bowman Exxon / Lions Den / L. D. Management, Inc. (SCDES UST ID # 06971) [REC 10]
  2269 Homestead Road
  Bowman, SC
  Orangeburg County Parcel #0258-00-04-001.000

  The Bowman Exxon / Lion's Den / L. D. Management, Inc. is a UST/RCR/LUST/RGA LUST/FINDS site located adjacent to the Project Area. During site reconnaissance, this site was observed to be the "Lion's Den Adult Superstore" and for simplicity this site will be referred to as Former Bowman Exxon. According to the SCDES UST Registry, four (4) UST are associated with this site and each of these UST were removed in 1987. One (1) confirmed UST release is associated with this UST/RCR/LUST/RGA LUST/FINDS site reported in 1993. NFA status was issued by SCDES for the confirmed UST release in 2011. However, this NFA status is identified as conditional and groundwater contamination is still present on this site at greater than the EPA MCL. According to the EDR regulatory information, the groundwater flow direction on this site is "RAD," (i.e., which is presumed to be radially) within the Project Area.

  Due to groundwater contamination greater than EPA MCL, this UST/RCR/LUST/RGA LUST/FINDS site is considered **REC-10** in connection with the Project Area. While the UST are reported to be removed, due to the age of operation of this former UST site,

predating modern UST regulations, and current Project Area limits, equipment and underground piping could be encountered during proposed roadwork. Therefore, encountering existing UST, equipment, and underground piping during proposed roadwork must be considered if all or a portion of this parcel is acquired.

- Lil Cricket 350 / Scotchman / Exxon(SCDES UST ID # 18891) [REC 11]
  2267 Homestead Road
  Bowman, SC
  Orangeburg County Parcel #0258-00-04-013.000

  The Lil Cricket 350 / Scotchman / Exxon is a UST/FINDS site is located within the Project Area. During site reconnaissance, this site was observed to be an operating Scotchman Exxon gas station site and for simplicity this site will be referred to as Scotchman Exxon. According to the SCDES UST Registry, two (2) UST are associated with this site and each of these UST are "currently in use." No known UST release(s) are associated with this UST/FINDS site.

  While no confirmed UST releases have been reported for the Scotchman Exxon, the gas station structures and tank farm are located within the current Project Area. Therefore, this site is considered REC-11 in connection with the Project Area, due to the current Project Area limits. Encountering existing UST, equipment, and underground piping during proposed roadwork must be considered if all or a portion of this parcel is acquired.

- Brakefield Enterprises, Inc. / Brakefield S Exxon / Expressway Exxon, Inc. / Exxon 3 / North American Petroleum Stores, LLC / Wilkerson Fuel Company, Inc. (SCDES UST ID # 11308 and 06919)
  5323 Vance Road / Hwy 210 & I-26 / I 26 & SC 210
  Bowman, SC
  Orangeburg County Parcel #0276-00-06-001.000

  The Brakefield Enterprises, Inc. / Brakefield S Exxon / Expressway Exxon, Inc. / Exxon 3 / North American Petroleum Stores, LLC / Wilkerson Fuel Company, Inc. is a UST/LUST/RGA LUST/FINDS site located within the Project Area. Two (2) SCDES UST ID numbers are associated with this site, #11308 and #06919. During site reconnaissance, this site was observed to be an operating Exxon gas station site and for simplicity this site will be referred to as Exxon 3. Information associated with these two (2) SCDES UST ID numbers is discussed below.

  SCDES UST ID # 11308 – Four (4) USTs are associated with Exxon 3. Each of the four (4) UST are "currently in use." According to the SCDES UST Registry, SCDES determined that Exxon 3 was in compliance based on an inspections conducted in March 2024. One (1) unconfirmed UST release and one (1) confirmed UST release are associated with this UST/LUST/RGA LUST/FINDS site reported in 2008 and 2009, respectively. NFA status was issued by SCDES for the unconfirmed and confirmed releases in 2008 and 2009, respectively.

SCDES UST ID # 06919 – Six (6) USTs are associated with Wilkerson Fuel Company, Inc. According to the SCDES UST Registry, each of the six (6) UST were removed. However, the date of removal is unknown but likely prior to modern UST regulations. No known releases are associated with this SCDES UST ID.

While Brakefield Enterprises, Inc. / Brakefield S Exxon / Expressway Exxon, Inc. / Exxon 3 / North American Petroleum Stores, LLC / Wilkerson Fuel Company, Inc. is located within the Project Area, the structures and UST are located outside of the Project Area. Therefore, due to the current NFA status and Project Area limits, encountering existing UST, equipment, and underground piping are unlikely and this UST/LUST/RGA LUST/FINDS would not likely adversely affect the Project Area.

- Flying J / Bowman Texaco Food Mart / Smith JB & PA / Bowman Texaco Service Garage / Bowman Shell / Southern Building Supply (SCDES UST ID # 10321) [REC 12]
  5448 and 5458 Vance Road
  Bowman, SC
  Orangeburg County Parcel #0276-00-04-002.000

  The Flying J / Bowman Texaco Food Mart / Smith JB & PA / Bowman Texaco Service Garage / Bowman Shell is a UST/LUST/SHWS/RCR/AUL/VCP/SC BROWNFIELDS/ALLSITES/EDR Hist Auto/SC GWCI/FINDS site located within the Project Area. During site reconnaissance, this former gas station site was observed to be an operating Southern Building Supply site and for simplicity this site will be referred to as Southern Building Supply. Five (5) UST are associated with Southern Building Supply, and each of the UST associated with this site were removed in 2009. A confirmed UST release is associated with this UST/LUST/SHWS/RCR/AUL/VCP/SC BROWNFIELDS/ALLSITES/EDR Hist Auto/SC GWCI/FINDS site in 2007. NFA status was issued for this confirmed UST release in 2019. However, contamination is reportedly present on this site at greater than EPA groundwater MCL. According to the EDR regulatory information, the groundwater flow direction is to the southwest, toward the Project Area.

  Due to the age of operation and the presence of groundwater contamination greater than EPA MCL, this UST/LUST/SHWS/RCR/AUL/VCP/SC BROWNFIELDS/ALLSITES/EDR Hist Auto/SC GWCI/FINDS site is considered REC-12 in connection with the Project Area. Encountering existing UST, equipment, and underground piping during proposed roadwork must be considered if all or a portion of this parcel is acquired.

- Exit 165 / Macs Quick C, LLC / BP (SCDES UST ID # 10326) [REC 13]
  5463 and 5465 Vance Road
  Bowman, SC
  Orangeburg County Parcel #0276-00-05-001.000

  The Exit 165 / Macs Quick C, LLC / BP is a UST/LUST/RGA LUST/FINDS site located within the Project Area. This site was also identified as an EDR Hist Auto from 2000 to 2012. During site reconnaissance, this site was observed to be an operating "BP Exit

165" gas station site and for simplicity this site will be referred to as BP Exit 165. Five (5) UST are associated with BP Exit 165, and each of the UST associated with this site are "currently in use." Four (4) confirmed UST releases are associated with this UST/LUST/RGA LUST/FINDS site in 1991, 1996, 2008, and 2009. One (1) unconfirmed UST release also occurred in 1996. NFA status was issued for each of the confirmed and unconfirmed releases, with the exception of the 2009 release. No NFA has yet been issued for the 2009 release.

Due to the age of operation, the 2009 UST release, and the location of BP Exit 165 (i.e., entirely within the limits of the Project Area), this UST/LUST/RGA LUST/FINDS site is considered **REC-13** in connection with the Project Area. Encountering existing UST, equipment, and underground piping during proposed roadwork must be considered if all or a portion of this parcel is acquired.

- Release Incident
  210 Whitford Stage Road
  Orangeburg, SC
  Orangeburg County Parcel #0207-00-03-072.000

  "Release Incident" is a SPILL site located within the Project Area. Based on SPILLS information, Wells Trucking spilled 130 gallons of diesel at 210 Whitford Stage Road. During site reconnaissance, this site was observed to be a predominantly residential neighborhood with a cell tower adjacent to Whitford Stage Road. The comments noted within the EDR regulatory information indicated that "10,000 L.V [sic] was collected/recovered." While FME is unable to determine what L.V. means, it is likely that a cleanup took place. Therefore, in the absence of further release or cleanup information from SCDES, this SPILL site would not likely adversely affect the Project Area.

- Saddle Tanks
  "I-95 and I-26"
  Orangeburg, SC
  Orangeburg County Parcel Unknown

  Saddle Tanks is a site with incomplete address information but identified as a SPILL site due to a 100-gallon diesel spill located within the EDR regulatory information. The information does not indicate which side of I-95 was impacted. However, based on the limited address information provided, this site is reportedly located at the intersection of I-26 and I-95. While no cleanup activities were noted within the EDR regulatory information, 100 gallons is considered a relatively small spill. Therefore, in the absence of further release or cleanup information from SCDES, this SPILL site would not likely adversely affect the Project Area.

5.1.2 Facilities Associated with Hazardous Waste Sites

The EDR database search identified two (2) sites corresponding to the environmental regulatory programs listed below within the 2,000-foot search distance.

- RCRA NonGen/NLR – Resource Conservation and Recovery Act – No longer a generator of hazardous waste.
- US AIRS – Database sub-system of the Aerometric Information Retrieval System.
- AIRS – A listing of permitted Air facilities.
- TRIS – Toxic Chemical Release Inventory System.
- ECHO – Integrated Enforcement and Compliance information database.
- FINDS – Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail.

These two (2) hazardous waste sites are discussed below in more detail.

- Concrete Supply Company, LLC Orangeburg
  291 Monticello Road
  Orangeburg, SC
  Orangeburg County Parcel #0208-00-05-006.000

  This US AIRS/AIRS/TRIS/FINDS/ECHO site is located within the Project Area. Based on EDR regulatory information, this facility has an Air Quality permit with SCDES. During site reconnaissance, this site was observed to be an operating concrete plant. No violations were noted within the EDR regulatory information. Therefore, in the absence of further SCDES regulatory or release information, this US AIRS/AIRS/TRIS/FINDS/ECHO site would not likely adversely affect the Project Area.

- Kaiser Agricultural
  "Highway 33 Past I-26"
  Orangeburg, SC
  Orangeburg County Parcel #0208-00-01-021.000 and #0208-00-01-020.000

  Kaiser Agricultural was identified as a RCRA-NonGen/NLR site. This site is located 311 feet northeast of the Project Area. However, this facility no longer generates hazardous waste. During site reconnaissance, this site was observed to be Nutrien Ag Solutions, an agricultural operation. Additionally, according to EDR regulatory information, no violations were identified for Kaiser Agricultural. Therefore, in the absence of further SCDES information or release information, this RCRA-NonGen/NLR site would not likely adversely affect the Project Area.

5.2 Historical Use Information for the Project Area

The historical use of the Project Area was evaluated through the information received, historic aerial photographs, and mapping. Prior to the construction of I-26, in approximately 1959 and 1960, the Project Area formerly contained agricultural farmlands, woodlands, waterways, etc.

Many of the roadways were already in existence. The historic information regarding the Project Area and adjoining uses were obtained from the following sources listed in Table 2.

Table 2. Records Identified by EDR

SOURCE	DOCUMENT/PHOTOGRAPH DATES
Topographic Maps (EDR)	1920, 1921, 1943, 1943/1944, 1944, 1946, 1982/1987, 1982, 1988, 2014, 2017, 2020
City Directory (EDR)	1986, 1992, 1995, 2000, 2005, 2010, 2014, 2017, 2020
Aerial Photographs (EDR)	1957, 1961, 1964, 1974, 1981, 1983, 1994/1995, 2006, 2011, 2015, 2019

5.2.1 Historical Topographic Maps

The historical topographical maps were created by the USGS. Review of these maps show that the general topography within the vicinity of the Project Area and adjoining parcels, from 1920 to 2020, has not changed significantly over time. Prior to the 1982 topographical maps, I-26 was not identified within the Project Area. Based on historical topographical maps alone, this stretch of I-26 was likely constructed between 1946 and 1982. However, historic aerial photographs below narrow the window of I-26 construction to between 1957 and 1961.

5.2.2 City Directory

The 1986 to 2020 city directories for Five Chop Road, Five Chop Road Southeast, Homestead Road, and Vance Road were reviewed to assist in determining the historical uses of parcels within the vicinity of the Project Area. The listings included within the city directories appear to be listings for residential homes, gas stations, commercial, and light industrial operations previously identified within other sources of information. The following listings identified within the Project Area, which required further assessment, are summarized below.

<u>Five Chop Road</u>

- Kubota Lawn & Garden Tractors, Inc. / Carolina Asphalt & Excavation & Construction, LLC, 3159 Five Chop Road (2000-2005).
- Love's Travel Stop / 154 A Auto Center, 3205 Five Chop Road (2000-2020).
- Quick Pantry / Quick Pantry 6 / Traveland of Orangeburg, 3224 Five Chop Road (2000-2017).
- Corner Pantry, 3229 Five Chop Road (2010).
- Four Holes Sales Service / Mary L. Kelly, 3232 Five Chop Road (2010-2017).
- 301 Truck Stop Incorporated / Mary Hinton, 3538 Five Chop Road (2000).
- JS&J Trucking Inc., 3553 Five Chop Road (2005-2010).

<u>Homestead Road</u>

- Goodyear Commercial Tire-SVC / C B Doctor / Pilot Truck Care Center / Bowman Truck Lube USA / TruckLube USA, 2052 Homestead Road (2000-2020).

- Pilot Travel CTR / Pilot Travel No. 60 / Speedway No. 8446 / Shell Super Stop, 2064 Homestead Road (1995-2020).
- Exxon / Li'l Cricket / Scotchman Store / Li'l Cricket Food Stores, 2267 Homestead Road (2005-2020).
- Lion's Den, 2269 Homestead Road (2005-2020).
- Able Garage, 2423 Homestead Road (1995-2020).

Vance Road

- Expressway Exxon / Exxon / Brakefield Enterprises, Inc., 5323 Vance Road (2000-2020).
- Bowman Texaco SVC Garage / Wallace Thomas / Bowman Shell / Bowman Texaco Service Garage / Bowman Texaco Truck Stop / U-Haul Co. Dealers, 5448 Vance Road (1995-2010).
- Quick C Food Mart / Macs Quick C, LLC / Hot Stuff on the Go / Carolina Cafe, 5463 Vance Road (2000-2020).
- Smith Trucking / R&R Smith Properties, Inc., 5605 Vance Road (2005-2020).

Many of these sites were previously identified as REC/CREC within this Limited Phase I ESA Report and are discussed in other sections of this report. However, of the above listings, Four Holes Sales Service, located at 3232 Five Chop Road, was identified as an automotive garage within the Project Area and was not previously identified by EDR regulatory information.

- Four Holes Sales & Service [REC 14]
  3232 Five Chop Road
  Orangeburg, SC
  Orangeburg County Parcel #0208-00-01-001.000

  Four Holes Sales & Service, located at 3232 Five Chop Road, was observed to be an automotive garage during site reconnaissance. Additionally, buildings were also observed on this site within historic aerial photographs as early as 1964 which resembles a gas station/service station. Based on the location within the Project Area and age of this automotive garage operation, petroleum and solvents were likely used at this location prior to modern UST regulations. Due to the age of this automotive garage operation, Four Holes Sales Service, located at 3232 Five Chop Road, is identified as **REC-14**, in connection with the Project Area.

5.2.3 Historic Aerial Photographs

Due to the size of the Project Area, historic aerial photographs were separated into 9 Quadrants along the Project Area. Please refer to the historic aerial photographs in Appendix D which includes the indices 1 through 9.

1957 Aerial Photographs – Partial coverage of the Project Area was only provided for the 1957 historic aerial photographs within Quadrants 7 through 9 (i.e., no coverage was provided for Quadrants 1 through 8 in 1957). The 1957 historic aerial photographs are the

earliest aerial photographs of the Project Area and surrounding area. Use of the Project Area and surrounding area in the aerial photographs from 1957 appears to be primarily rural and agricultural in nature. The 1957 historic aerial photograph shows that I-26 had not yet been constructed. Only two (2) roadways, Vance Road, and Ebenezer Road within the Project Area, are visible within these early aerial photographs. A summary of each Quadrant for 1957 is provided below:

- Quadrant 7 – Vance Road and Ebenezer Road had been constructed by 1957.
- Quadrant 8 – State Road S-38-1302 (i.e., located between Vance Road and I-95) had not yet been constructed by 1957.
- Quadrant 9 – I-95 and Weathers Farm Road had not been constructed by 1957.

1961 Aerial Photographs – Partial coverage of the Project Area was only provided for the 1961 historic aerial photograph within Quadrant 5. However, full coverage for the 1961 historic aerial photographs were provided for Quadrants 6 through 9 (i.e., no coverage was provided for Quadrants 1 through 4 in 1961). Due to the scale of the historic aerial photographs, few details regarding what business operations may have been in existence in 1961 could be discerned. The 1961 historic aerial photograph shows that I-26 had been constructed within the Project Area. Many secondary roadways are also visible within the Project Area, within the early 1961 aerial photographs. A summary of each Quadrant for 1961 is provided below:

- Quadrant 5 – Homestead Road had been constructed by 1961.
- Quadrant 6 – Arista Road had been constructed by 1961.
- Quadrant 7 – No significant changes are visible to Vance Road and Ebenezer Road.
- Quadrant 8 – No significant changes are visible to State Road S-38-1302.
- Quadrant 9 –Weathers Farm Road had been constructed by 1961. However, I-95 had not been constructed by 1961.

1964 Aerial Photographs – Partial coverage of the Project Area was only provided for the 1964 historic aerial photograph within Quadrants 4 and 5. However, full coverage for the 1964 historic aerial photographs were provided for Quadrants 1 through 3 as well as 6 through 9. No significant changes are visible within Quadrants 6 through 9. A summary of each of the remaining Quadrants for 1964 is provided below:

- Quadrant 1 – Bellville Road and Cameron Road (West) had been constructed by 1964.
- Quadrant 2 – Cameron Road (East), Gramling Road, and Old Elloree Road (West) had been constructed by 1964. One (1) relevant business operation is noted to be located at Cameron Road in 1964:
    - REC-1 –Cooper Tools Orangeburg, located at “Hwy 33 at I-26” is identified as a UST/LUST/FINDS/ECHO site.
- Quadrant 3 – Old Elloree (East), 4 Holes Road, and Five Chop Road (West) had been constructed by 1964. Several relevant business operations are noted to be located on Five Chop Road (West) in 1964, these operations are:
    - REC-4 – Former Quick Pantry 6, located at 3224 Five Chop Road is identified as a UST/LUST/RGA LUST/FINDS/ICIS/ECHO/GWCI/UIC site.

    - REC-14 – Four Holes Sales & Service, located at 3232 Five Chop Road is identified as an automotive operation dating back to at least 1964.
- Quadrant 4 – Five Chop Road (East) and Big Buck Boulevard had been constructed by 1964. One (1) relevant business operation is noted to be located on Five Chop Road (East) in 1964:
    - CREC-7 – Coastal Industrial Equipment, located at 3530 and 3538 Five Chop Road is identified as a AST/UST/LUST/RGA LUST/GWCI/EDR Hist Auto/GWT site.
- Quadrant 5 – Several relevant business operations are noted to be located on Homestead Road in 1964, these operations are:
    - REC-10 – Former Bowman Exxon, located at 2269 Homestead Road is identified as a UST/RCR/LUST/RGA LUST/FINDS site.
    - REC-11 – Scotchman Exxon, located at 2267 Homestead Road is identified as a UST/FINDS site.

1974 Aerial Photographs – Full coverage for the 1974 historic aerial photographs were provided for Quadrants 1 through 9. No significant changes are visible within Quadrants 1 through 3, 5 through 6, and 8. A summary of each of the remaining Quadrants for 1974 is provided below:

- Quadrant 4 – Several relevant business operations are noted to be located on Five Chop Road (East) in 1974:
    - REC-6 – 7 Eleven, located at 3457 and 3467 Five Chop Road is identified as a UST site.
    - REC-8 – Former Orange Texaco, located at "301 & I 26" is identified as a UST site.
- Quadrant 7 – Several relevant business operations are noted to be located on Vance Road in 1974:
    - REC-13 – BP Exit 165, located at 5463 and 5465 Vance Road is identified as a UST/LUST/RGA LUST/FINDS site.
- Quadrant 9 – I-95 had been constructed by 1974.

1981 Aerial Photographs – Partial coverage of the Project Area was only provided for the 1981 historic aerial photograph within Quadrant 5. Full coverage for the 1981 historic aerial photographs were provided for Quadrants 1 through 4 (i.e., historic aerial photographs were not provided in 1981 for Quadrants 5 through 9). No significant changes are observed within each of the four (4) Quadrants for 1981.

1983 Aerial Photographs – Full coverage for the 1983 historic aerial photographs were provided for Quadrants 1 through 9. No significant changes are visible within Quadrants 1 through 2, and 4 through 9. A summary of each of the remaining Quadrants for 1983 is provided below:

- Quadrant 3 – One (1) relevant business operation is noted to be located on Five Chop Road (West) in 1983:
    - REC-2 – Loves, located at 3205 and 3211 Five Chop Road is identified as a UST/LUST/ERNS/HMIRS/RGA LUST/FINDS/SPILLS/EDR Hist Auto site.

1994/1995 Aerial Photographs – Full coverage for the 1994/1995 historic aerial photographs were provided for Quadrants 1 through 9. No significant changes are visible within Quadrants 1, 2, 4, 6, 8, and 9. A summary of each of the remaining Quadrants for 1994/1995 is provided below:

- Quadrant 3 – One (1) relevant business operation is noted to be located on Five Chop Road (West) in 1994/1995:
    - REC-3 – Corner Pantry 116 / Corner Pantry, Inc. / Quick Pantry 101 / Quick Pantry 116 / Shell located at 3229 Five Chop Road is identified as a UST/LUST/ RGA LUST/FINDS/SPILLS/EDR Hist Auto/ICIS/FINDS/ECHO site.
- Quadrant 5 – One (1) relevant business operation is noted to be located on Homestead Road in 1994/1995:
    - REC-9 – Pilot, located at 2064 Homestead Road is identified as a UST/LUST/RGA LUST/EDR Hist Auto /FINDS/SPILL site.
- Quadrant 7 – One (1) relevant business operation is noted to be located on Vance Road in 1994/1995:
    - REC-12 – Southern Building Supply, located at 5448 and 5458 Vance Road is identified as a UST/LUST/SHWS/RCR/AUL/VCP/SC BROWNFIELDS/ALLSITES/ EDR Hist Auto/SC GWCI/FINDS site.

- 2006 to 2019 Aerial Photographs – No significant changes are observed within each of the nine (9) Quadrants for 2006 to 2019.

- 2022 Aerial Photograph – Online imagery from 2022 indicates that one (1) relevant business operation is noted to be located on Millenium Drive in 2022:

    - REC-5 – Quicktrip, located at 111 Millenium Drive is identified as a UST/HMIRS site.

6. SITE RECONNAISSANCE

6.1 Methodology and Limiting Conditions

On March 26 and 27, 2025, FME conducted site reconnaissance of the Project Area to the extent the Environmental Professional was not obstructed by bodies of water, limits on access, adjacent buildings, or other obstacles. The Project Area was viewed from public rights-of-ways (i.e., no private property was accessed). The site reconnaissance included a site walkover of the Project Area, observations of adjoining parcels, and photographing portions of the Project Area. Photographs taken during site reconnaissance are included in Appendix C.

6.2 General Site Setting

The Project Area includes a portion of I-26 within rural Orangeburg and Dorchester Counties, South Carolina. Land use within the Project Area is currently described as mixed-use. For many of the parcels, the Project Area includes only a portion of the parcel located along I-26 as well as

roadways that intersect I-26. The Project Area found within Appendix B, Figures 2 to 10 includes the current proposed road improvement area. The Project Area is identified by all or portions of approximately 363 individual parcels.

6.3 Interior and Exterior Observations

6.3.1 Current Uses of the Project Area

A more detailed use of Orangeburg and Dorchester Counties is described above in Section 3.1. Land uses within and adjoining the Project Area primarily include mixed-uses.

6.3.2 Past Uses of the Project Area

Past Uses of the Project Area is typically demonstrated through aerial photographs, topographic maps, and other research information for the Project Area. Based on various forms of information, the Project Area was formerly rural. The 1961 aerial photographs indicates that I-26 and many of the secondary road bridges over I-26 had been constructed. Likewise, site reconnaissance verified that many of the bridges within the Project Area had been constructed in 1959 and 1960.

6.3.3 Hazardous Substances and Petroleum Products in Connection with Identified Uses

De minimis amounts of household garbage, discarded furniture, small petroleum product containers, automotive tires, and yard debris were found within various portions of the Project Area, predominantly along frontage roads adjacent to I-26. These *de minimis* amounts of waste are not expected to adversely impact the Project Area.

Based on EDR regulatory information, fifteen (15) operating gas stations, former gas stations and UST/LUST sites are located within and adjacent to the Project Area, and each were discussed within previous sections above. Fourteen (14) REC/CREC were identified associated with fifteen (15) of these UST/LUST sites.

Therefore, each of the fourteen (14) REC/CREC were discussed above within Section 5.1.1, 5.1.2, and 5.2.2 are considered environmental concerns in connection with the Project Area.

6.3.4 Storage Tanks

Evidence of USTs were observed at eight (8) gas station sites located within the Project Area during site reconnaissance. As previously discussed, fifteen (15) operating gas stations, former gas stations, and UST/LUST sites are located within and adjacent to the Project Area, and each were discussed within previous sections above. Fourteen (14) REC/CREC were identified associated with fifteen (15) of these UST/LUST sites.

6.3.5 Odors

No unusual odors were observed during the site reconnaissance.

6.3.6 Pools of Liquid

Pools of liquids, primarily presumed to be water, were observed during site reconnaissance. Additionally, as previously mentioned within other sections of this report, three (3) small creeks, Little Bull Creek, Mill Branch, and Cow Castle Creek, cross beneath I-26 at three (3) separate locations within the Project Area.

6.3.7 Drums

No drums were observed within the Project Area during site reconnaissance.

6.3.8 Hazardous Substances and Petroleum Products Containers

As noted in Section 6.3.3 above, fifteen (15) operating gas stations, former gas stations, and UST/LUST sites are located within and adjacent to the Project Area, and each were discussed within previous sections above. Fourteen (14) CREC/REC were identified associated with fifteen (15) of these UST/LUST sites.

De minimis amounts of household garbage, discarded furniture, small petroleum product containers, automotive tires, and yard debris were found within various portions of the Project Area predominantly along frontage roads adjacent to I-26. These *de minimis* amounts of common household waste are not expected to adversely impact the Project Area.

6.3.9 Unidentified Substance Containers

No unidentified substance containers were identified within the limits of the Project Area during site reconnaissance.

6.3.10 PCBs

Electrical equipment and oil-filled transformers manufactured prior to 1979 may contain polychlorinated biphenyl (PCB) dielectric oils. The production of PCB fluids was discontinued in the United States in 1977 and new PCB-oil containing equipment was banned on July 1, 1979.

Pole-mounted transformers were observed within the limits of the Project Area during site reconnaissance. Several pole-mounted transformers were not marked or labeled as to possible-PCB content. However, no staining or stressed vegetation (i.e., which could indicate a potential environmental release) was observed adjacent to transformers within the Project Area during site reconnaissance. Therefore, these transformers are not expected to adversely impact the Project Area.

6.3.11 Interior Observations

The interior of private structures, such as single-family homes or places of business located within the Project Area, were not accessed during this Limited Phase I ESA due to an agreed upon scope of work with the Users.

6.3.12 Heating/Cooling

Heating, ventilation, and air conditioning (HVAC) systems were observed during site reconnaissance at various parcels within the Project Area. Normal use of these residential or commercial HVAC systems is not likely to impact the Project Area.

6.3.13 Stains or Corrosions

No interior stains or evidence of corrosion were observed due to the limits on the scope of work for this Limited Phase I ESA (i.e., interiors of buildings were not inspected or accessed).

6.3.14 Drains and Sumps

No drains or sumps were observed within the Project Area during site reconnaissance due to the limits on the scope of work for this Limited Phase I ESA (i.e., interiors of buildings were not inspected or accessed).

6.4 Exterior Observations

The Project Area currently consists of mixed-uses within rural Orangeburg and Dorchester Counties, South Carolina. The Project Area includes approximately 363 individual parcels located adjacent to I-26. For many of the parcels within the Project Area, only a small portion of the parcel is located within the limits of the Project Area. The Project Area is found within Appendix B, Figures 2 through 10 and includes the proposed road improvement area.

6.4.1 Pits, Ponds, or Lagoons

As stated above in Section 6.3.6 above, three (3) small creeks, Little Bull Creek, Mill Branch, and Cow Castle Creek, cross beneath I-26 at three (3) locations within the Project Area. Additionally, ponds and stormwater drainage features are also located adjacent to the Project Area.

6.4.2 Stained Soil or Pavement

Only *de minimis* staining was observed during site reconnaissance on pavement within the Project Area, primarily at the eight (8) operating gas station locations.

6.4.3 Stressed Vegetation

No stressed vegetation was observed within the Project Area.

6.4.4 Solid Waste

Commercial dumpsters were located at multiple gas stations and industrial sites, within the Project Area during site reconnaissance. As noted above in Section 6.3.3, *de minimis* amounts of household garbage, discarded furniture, small petroleum product containers, automotive tires, and yard debris were found within various portions of the Project Area predominantly along frontage roads adjacent to I-26. The *de minimis* amounts of common household waste observed during site reconnaissance and the presence of commercial dumpsters/trash receptacles are not expected to impact the Project Area.

6.4.5 Wastewater

No wastewater was observed during site reconnaissance.

6.4.6 Wells

No operational wells were observed within the limits of the Project Area. However, due to the rural nature of Project Area, current or former potable wells, monitoring wells, etc. may still be found within the Project Area.

6.4.7 Septic Systems

No operational septic systems were observed within the limits of the Project Area. However, due to the rural nature of Project, current or former septic systems may still be found within the Project Area.

6.4.8 Other Observations

Evidence of underground and above ground utilities were observed during site reconnaissance, primarily adjacent to roadways within the Project Area. Overhead power transmission lines which cross I-26 were also located within the Project Area. Similarly, multiple cellular phone towers and lift stations are located within the Project Area.

7. DATA GAPS

FME identified the following data gaps that may affect the ability of the Environmental Professional to identify REC.

- Lack of interview information.
- Absence of aerial photography prior to 1957 and between 1964 to 1974, 1983 to 1994/1995, and 1994/1995 to 2006. Additionally, only partial coverage of portions of the Project Area were available in early historic aerial photography.
- Lack of 60-year chain of title information.

Data gaps regarding aerial photographs, title information, and deed information are not considered to be significant due to other sources of information such as historical topographic maps from 1920 to 2020.

8. FINDINGS

FME has completed this Limited Phase I ESA, and based on our research, the following findings were revealed:

- The Project Area currently consists primarily of I-26 and secondary roadways adjacent to I-26. Land uses within and adjoining the Project Area include mixed-uses, such as agricultural, residential, commercial, industrial, etc.

- Based on historic aerial photographs dating back to 1957, parcels within the Project Area have been historically used for agricultural and residential uses. It should be noted that I-26 had not been constructed in this earliest historic aerial photograph.

- Based on site reconnaissance and historic aerial photographs of the Project Area, I-26, interchanges, and bridges from MM 145 to MM 172 were likely constructed in approximately 1959 through 1960.

- Three (3) small creeks, Little Bull Creek, Mill Branch, and Cow Castle Creek, cross beneath I-26 at three (3) locations within the Project Area. Ponds and drainage features are also located adjacent to the Project Area.

- According to the Soil Survey published by the United States Department of Agriculture (USDA), the predominant surficial soils within the Project Area are Goldsboro sandy loam, Lynchburg fine sandy loam, Noboco loamy sand, and Rains sandy loam. Depending on the location within the Project Area, depth to groundwater ranges from approximately 0 to 50 feet bgs. However, depth to groundwater may be affected by precipitation, river flood elevation, and should not be considered static. Annual precipitation typically ranges from 37 to 60 inches.

- The EDR Corridor Reports identified 235 regulatory listings within the 2,000-foot search distance and databases. However, these 235 regulatory records correspond to approximately 51 sites regulated/registered by State and Federal agencies, due to duplicate listings. It should be noted that while each listing was evaluated by FME, due to the number of regulatory sites, only the regulatory sites that are suspected of possibly impacting the Project Area were discussed above. Some of the listings in the database report were contained in more than one database. If a regulatory site was not previously discussed, it is FME's opinion that the site is unlikely to adversely impact the Project Area. Many of the regulatory sites were eliminated from consideration due to direction, distance, or relative elevation when compared to the Project Area.

- Based on EDR regulatory and historic information as well as site reconnaissance, FME identified fourteen (14) sites which may adversely affect the Project Area. These sites are summarized below.

    - REC-1
      Cooper Tools Orangeburg
      Cameron Road / "Hwy 33 at I-26" (TMS #0208-00-01-023.000)
      UST/LUST/ FINDS/ECHO

    - REC-2
      Loves
      3205 Five Chop Road / 3211 Five Chop Road (TMS #0236-00-06-001.000 and 0236-00-06-005.000)
      UST/LUST/ERNS/HMIRS/RGA LUST/FINDS/SPILLS/EDR Hist Auto

    - REC-3
      Shell
      3229 Five Chop Road (TMS #0236-00-06-004.000)
      UST/LUST/RGA LUST/EDR Hist Auto/ICIS/FINDS/ECHO

    - REC-4
      Former Quick Pantry 6, "I-26 & 301" / 3224 Five Chop Road (TMS#0236-00-07-002.000)
      UST/LUST/RGA LUST/FINDS/ICIS/ECHO/GWCI/UIC

    - REC-5
      Quicktrip
      111 Millenium Drive (TMS #0236-00-07-003.000)
      UST/HMIRS

    - REC-6
      7 Eleven
      3457 & 3467 Five Chop Road (TMS #0236-00-05-014.000, 0236-00-05-023.000, and 0236-00-05-025.000)
      UST Site

    - CREC-7
      Coastal Industrial Equipment
      3530 and 3538 Five Chop Road
      Orangeburg County Parcel #0236-00-08-030.000
      (AST/UST/LUST/RGA LUST/GWCI/EDR Hist Auto/GWT)

    - REC-8
      Former Orange Texaco
      "301 & I 26" (i.e., possible former gas station located at 3408 Five Chop Road)
      Orangeburg County Parcel #0236-00-08-022.000
      (UST)

- REC-9
  Pilot
  2064 Homestead Road
  Orangeburg County Parcel #0258-00-01-006.000
  (UST/LUST RGA LUST/EDR Hist Auto/RCR/FINDS/SPILL)

- REC-10
  Former Bowman Exxon
  2269 Homestead Road
  Orangeburg County Parcel #0258-00-04-001.000
  (UST/RCR/LUST/RGA LUST/FINDS)

- REC-11
  Scotchman Exxon
  2267 Homestead Road
  Orangeburg County Parcel #0258-00-04-013.000
  (UST/FINDS)

- REC-12
  Southern Building Supply
  5448 and 5458 Vance Road
  Orangeburg County Parcel #0276-00-04-002.000
  (UST/LUST/SHWS/RCR/AUL/VCP/SC BROWNFIELDS/ALLSITES/EDR Hist Auto/SC GWCI/FINDS)

- REC-13
  BP Exit 165
  5463 and 5465 Vance Road
  Orangeburg County Parcel #0276-00-05-001.000
  (UST/LUST/RGA LUST/FINDS)

- REC-14
  Four Holes Sales & Service
  3232 Five Chop Road
  Orangeburg County Parcel #0230-00-00-016.000
  (Automotive garage operation and potential former gas station site dating back to 1964.)

9. OPINION

Based on our records research, site reconnaissance, environmental records discovered within the minimum search distances, the proximity of possible sites in relation to the Project Area, review of topographic mapping data, a general understanding of the groundwater flow direction in the area around the Project Area, and a general understanding of the regional geology and soil

stratigraphy in the area, it is FME's opinion that, thirteen (13) REC and one (1) CREC were identified in connection with the Project Area. These fourteen (14) REC/CREC are described in more detail in Section 5 above. Additionally, each of the fourteen (14) REC/CREC are summarized above within Section 8 above.

The Project Area was provided to FME by the User. Due to the large size of the Project Area, thirteen (13) of the fourteen (14) REC/CREC identified are located within the Project Area. The only exception is Coastal Industrial Equipment (CREC-7), a AST/UST/LUST/RGA LUST/GWCI/EDR Hist Auto/GWT site, located 125 feet east of the Project Area. Since the current Project Area is of such a large size, many of the building structures, pump islands, tank farms, etc. of operating gas stations, former gas stations, and UST/LUST sites are also located within the Project Area.

10. CONCLUSIONS

FME has performed a Limited Phase I ESA in general conformance with the scope and limitations of ASTM E1527-21 of the Project Area. Any exceptions to, or deletions from, this practice are described in Section 2.4 of this report. This assessment has revealed indications of thirteen (13) REC and one (1) CREC in connection with the Project Area.

The following statement is required by ASTM E1527-21 as a declaration of whether RECs were found.

FME has performed a Limited Phase I ESA in general conformance with the scope and limitations of ASTM E1527-21 of the Project Area (i.e., identified within the Project Area Plans in Appendix B, Figures 2 through 10) to include I-26, between the mile markers 145 and 172 in Orangeburg and Dorchester Counties, South Carolina. Any exceptions to or deletions from these practices are described in previous sections of this report. This assessment has revealed evidence of one thirteen (13) REC and one (1) CREC in connection with the Project Area.

11. RECOMMENDATIONS

Recommendations were developed through the investigative procedures described in the Scope of Services, Significant Assumptions, and Limitations and Exceptions sections of this report. Since thirteen (13) REC and one (1) CREC were identified within the Project Area, FME makes the following recommendation.

- FME recommends a Phase II Environmental Site Assessment (Phase II ESA) for the fourteen (14) REC/CREC identified within the Findings of this report. Environmental conditions noted for these sites indicate that the soils and/or groundwater of these sites may have been adversely impacted from petroleum releases, past automotive operations, spills, and/or LUST releases.

- Building structures, pump islands, tank farms, etc. are located within the Project Area on eleven (11) of the fourteen (14) identified REC/CREC sites. Therefore, the possibility of encountering UST, equipment, piping, etc. during road work must also be considered. The use of GPR should be considered to identify these items. Sites identified requiring GPR are associated with REC-2, REC-3, REC-4, REC-5, REC-8, REC-9, REC-10, REC-11, REC-12, REC-13, and REC-14.

- The Project Area provided to FME for assessment included operating gas stations, former gas stations, and UST/LUST sites as described above within many sections of this Limited Phase I ESA. If the Project Area is more refined (e.g., reduced in size) in such a way that impacted portions of these sites are not obtained, impacted, or otherwise implicated in proposed roadwork, then Phase II ESA activities could be limited or omitted from Phase II ESA work, based on changes to roadway improvement designs.

- While not within the scope of a typical Limited Phase I ESA Report, asbestos and lead materials could be encountered if any structures are demolished within the Project Area. Therefore, if demolition activities are planned for any structures, asbestos and lead assessments will be required prior to demolition.

- FME recommends that the Users consider the "shelf life" of these Limited Phase I ESA documents in determining risk. ASTM E1527-21 states that a conforming "Phase I" report is valid for a period of 180 days, and may be updated during the 180 days, up to a 1-year timeframe. The 180 days/1 year timeframe shall commence on February 20, 2025, which is the earliest date of the required report components. The report is valid only for the Users in any of the CERCLA defenses and only if it is updated within this 180-day time frame. If an update is not issued and more than one year passes from February 20, 2025, the Limited Phase I effort would need to be repeated to remain in compliance with ASTM and the "All Appropriate Inquiry" protections.

12. DEVIATIONS

Deviation from the standard of practice for this Limited Phase I ESA include the absence of 60-year chain of ownership documentation which was not provided to FME by the Users. Additionally, deviations from the standard of practice for this Limited Phase I ESA include assessment of only portions of parcels located within the Project Area (i.e., the proposed right-of-way), as viewed from public thoroughfares. FME was not given access to any private property during the course of this assessment. Pursuant to an agreed upon scope of work, deed information and AAI questionnaires and pertinent deeds were not provided to FME by the Users.

14. SIGNATURE OF ENVIRONMENTAL PROFESSIONAL

I declare that, to the best of my professional knowledge and belief, I meet the definition of an Environmental Professional as defined in §312.10 of 40 CFR 312.

I have the specific qualifications based on education, training, and experience to assess a site of the nature, history, and setting of the Project Area. I have developed and performed AAI in general conformance with the standards and practices set forth in 40 CFR Part 312, noting the limitations within the report.

Rodney W. Wingard
Environmental Manager

15. QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONAL

Rodney W. Wingard
Environmental Manager

Previously with SCDES for 24 years, Rodney Wingard has direct experience with hazardous and radioactive waste permitting and corrective action. Most recently, he served as Manager of the RCRA Hazardous Waste Permitting and Corrective Action Section, which tracks hazardous wastes from the point of generation to disposal. As Manager, Mr. Wingard was responsible for directing and coordinating the statewide RCRA program for hazardous waste permitting and corrective action at operating commercial facilities. Through this experience, he developed excellent working relationships with those at the EPA, as well as the different divisions within SCDES.

Mr. Wingard's project experience includes the following.

1800 Gervais Street
Columbia, South Carolina
Mr. Wingard completed a Phase I ESA on 1800 Gervais Street, a mid-century structure for a property transaction for the University of South Carolina. The assessment consisted of records review, site reconnaissance, and report development.

Kress Corner
Florence County, South Carolina
Mr. Wingard completed a Phase I ESA on Kress Corner, a turn of the century property being redeveloped in downtown Florence. The assessment consisted of records review, site reconnaissance, and report development.

SC 85 Replacement Bridges over S-995/NSR and S-2
Spartanburg County, South Carolina
Mr. Wingard completed a Limited Phase I ESA on 52 parcels for the proposed bridge replacements on SC 85. The assessment consisted of records review, site reconnaissance, and report development.

EXPERIENCE

FME: 10 years
Other: 25 years

EDUCATION

B.S. in Mechanical Engineering
University of South Carolina (1990)

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

Environmental Interest/Information System:
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Environmental Interest/Information System:
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with

QUICK PANTRY 6 (Continued) **1007231127**

Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Air Facility System (AFS) contains compliance and permit data for stationary sources of air pollution regulated by the EPA, state, and local air pollution agencies.
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Prevention Program 3:

Safety review date:	2013-02-25 00:00:00
Most recent PHA date:	2012-11-08 00:00:00
Process Hazard Analysis:	What if
Expected PHA changes completion date:	2013-12-20 00:00:00
Major Hazard:	Toxic Release, Fire, Overpressurization, Corrosion, Overfilling, Equipment failure, Earthquake, Floods, Tornado, Hurricanes, Vehicle or Projectile Strike, Vandalism, Theft, or Terrorism
Process Control:	Relief valves, Check valves, Manual shutoffs, Excess flow device, Emergency Shutoff Valves
Mitigation Systems:	None
Monitoring/Detection:	Not reported
Changes since the last process hazard analysis:	Changed from Program Level 2 to 3.
Most recent review of op. procedures:	2013-03-08 00:00:00
Most recent training progs review/update:	2012-09-27 00:00:00
Training:	Classroom
Competency testing:	Written test, Demonstration, Observation
Most recent maintenance review date:	2013-03-05 00:00:00
Most recent equipment inspection date:	2013-03-05 00:00:00
Equipment tested:	Storage Tank and ancillary hoses, transfer piping, and valves.
Most recent changes by mgmt:	2012-11-08 00:00:00
Date of most recent review/update:	2012-09-27 00:00:00
Date of pre-start review:	2012-09-27 00:00:00
Most recent compliance audit date:	2011-05-18 00:00:00
Expected date of audit completion:	Not reported
Most recent incident investigation:	Not reported
Expected date of investigation changes:	Not reported
Date of participation plan review:	2013-03-08 00:00:00
Date of hot work permit review:	2012-09-27 00:00:00
Date of contractor safety review:	Not reported
Date of contractor safety eval. review:	2013-03-05 00:00:00
Record has CBI data:	False

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
The Risk Management Plan (RMP) database stores the risk management plans reported by companies that handle, manufacture, use, or store certain flammable or toxic substances, as required under section 112(r) of the Clean Air Act (CAA).
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Air Facility System (AFS) contains compliance and permit data for stationary sources of air pollution regulated by the EPA, state, and local air pollution agencies.
ICIS-Air (AIR) AIR is the modernization of the Air Facility System (AFS) into the Integrated Compliance Information System (ICIS). AIR contains enforcement, compliance, and permit data for stationary sources of air pollution regulated by the EPA, State, and Local air pollution agencies.
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
Registry ID: 110071438864

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Environmental Interest/Information System:
The Department of Labor, Occupational Safety and Health Administration information system consists of inspection case detail for approximately 100,000 OSHA inspections conducted annually. The FRS dataset includes facilities that had inspections within the last 7 years within the mining, oil and gas, utilities, and manufacturing sectors.

Environmental Interest/Information System:

THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
The Air Facility System (AFS) contains compliance and permit data for stationary sources of air pollution regulated by the EPA, state, and local air pollution agencies.
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
ICIS-Air (AIR) AIR is the modernization of the Air Facility System (AFS) into the Integrated Compliance Information System (ICIS). AIR contains enforcement, compliance, and permit data for stationary sources of air pollution regulated by the EPA, State, and Local air pollution agencies.
The Integrated Compliance Information System (ICIS) provides a

GKN AEROSPACE SOUTH CAROLINA (Continued) **1017383991**

database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

SC MANIFEST:

EPAID:	SCR000778787
Name:	GKN AEROSPACE SOUTH CAROLINA INC
Address:	348 MILLENNIUM DR
City,State,Zip:	ORANGEBURG, SC 29115
District:	Beaufort EQC Office
Quarter:	3
Year:	2017
Record Type:	G
No Waste Ind:	N
Index Number:	1
Waste Code 1:	F005
Waste Type 1:	The following spent non-halogenated solvents: Toluene, methyl ethyl ketone, carbon disulfide, isobutanol, pyridine, benzene, 2-ethoxyethanol, and 2- nitropropane; all spent solvent mixtures/blends containing, before use, a total of ten percent or more (by volume) of one or more of the above non-halogenated solvents or those solvents listed in F001, F002, or F004; and still bottoms from the recovery of these spent solvents and spent solvent mixtures.

Environmental Interest/Information System:
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that

YC HOLDINGS, INC. (Continued) **1005790094**

the discharge does not adversely affect water quality.

Environmental Interest/Information System:
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 12/19/2024
Date Data Arrived at EDR: 01/02/2025
Date Made Active in Reports: 01/21/2025
Number of Days to Update: 19

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/19/2024

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

AUL: Land Use Controls

The term Land Use Controls or "LUCs" encompass institutional controls, such as those involved in real estate interests, governmental permitting, zoning, public advisories, deed notices, and other legal restrictions. The term also includes restrictions on access, whether achieved by means of engineered barriers (e.g., fence or concrete pad) or by human means (e.g., the presence of security guards). Additionally, the term includes both affirmative measures to achieve the desired restrictions (e.g., night lighting of an area) and prohibitive directives (e.g., restrictions on certain types of wells for the duration of the corrective action). Considered altogether, the LUCs for a facility will provide a tool for how the property should be used in order to maintain the level of protectiveness that one or more corrective actions were designed to achieve.

VCP: Voluntary Cleanup Sites

Sites participating in the Voluntary Cleanup Program. Once staff and a non-responsible party have agreed upon an approved scope of work for a site investigation and/or remediation, the party enters into a voluntary cleanup contract. Staff oversees the cleanup efforts to ensure that activities are performed to our satisfaction. Upon completion of the negotiated work in the voluntary cleanup contract, the non-responsible party receives State Superfund liability protection.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)
The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Environmental Interest/Information System:
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Preparer of Incident Report:	Carrier
Description of Events:	Driver loaded 50% Sulfuric Acid at Brenntag in Charlotte NC destined for Tampa Florida. Driver pullled into the Loves truck stop in Orangeburg SC drove through the fuel island and parked in the truck parking area. When driver exited the truck at approx. 0515 he noticed acid leaking from under the rear of the trailer. The leak was from a 1/4 inch hole in the bottom of the tank directly under the manway and was spilling onto the pavement. Driver contacted truck stop management and 911 emergency response. The county HAZMAT team arrived and contained the spill using containers buoys and sand to stop the acid from running into the storm drain or the dirt. The onsite Hazmat response director made the decision to evacuate the truck stop including a small service station and a Waffle House located next to it. SWS Environmental arrived on scene and plugged the hole in the trailer stopping the leak. The remaining product in the trailer was pumped out into a rubber lined trailer. Approx. 1630 the truck stop and Waffle House were reopened.
Recommendations/Actions Taken:	The trailer was inspected after and it was determined that the liner had small defects that were not indentified by visual ispection. First step KC Industries Trucking has done is to stop transporting 50% Sulfuric Acid. Second all trailers that have hauled this material were taken out of service by the company and the liners were reinspected to evauate the damage if any to these trailers.

Environmental Interest/Information System:
The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas.

Environmental Interest/Information System:
The Air Facility System (AFS) contains compliance and permit data for stationary sources of air pollution regulated by the EPA, state, and local air pollution agencies.
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

TABLE OF CONTENTS

The EDR-Site Report™ is a comprehensive presentation of government filings on a facility identified in a search of federal, state and local environmental databases.

Section 1: Facility Detail Reports . . . . . Page 3

All available detailed information from databases where sites are identified.

Section 2: Databases and Update Information. . . . . Page 6

Name, source, update dates, contact phone number and description of each of the databases for this report.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Environmental Interest/Information System:
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas.
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

SECTION 2: DATABASES AND UPDATE DATES

To maintain currency of the following federal, state and local databases, EDR contacts the appropriate government agency on a monthly or quarterly basis as required.

Elapsed ASTM days: Provides confirmation that this report meets or exceeds the 90-day updating requirement of the ASTM standard.

DATABASES FOUND IN THIS REPORT

FINDS: Facility Index System/Facility Registry System
Source: EPA
Telephone: Not reported
Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

Date of Government Version: 11/11/2024
Database Release Frequency: Quarterly
Date of Last EDR Contact: 11/20/2024
Date of Next Scheduled Update: 03/10/2025

ECHO: Enforcement & Compliance History Information
Source: Environmental Protection Agency
Telephone: 202-564-2280
ECHO provides integrated compliance and enforcement information for about 800,000 regulated facilities nationwide.

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
The Risk Management Plan (RMP) database stores the risk management plans reported by companies that handle, manufacture, use, or store certain flammable or toxic substances, as required under section 112(r) of the Clean Air Act (CAA).
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Re: Request for information pertaining to any environmental issues at or near sites identified within the **enclosed Attachment**, **near the Town of Bowman and/or City of Orangeburg, in Orangeburg County, SC.**

To whom it may concern:

This is a request for information pertaining to any environmental issues that may have been registered with SCDHEC for the above address or attached list. Any information pertaining to environmental problems may consist of the following:

1) Information pertaining to the removal or installation of above ground and underground storage tanks;
2) Issuance of any environmentally related license(s), permit(s) and well record(s);
3) Issuance of any license(s) or permit(s) (or complaints against) to store hazardous substances, waste and/or petroleum products on the subject properties, or adjacent properties and any action taken;
4) Issuance of any license(s) or permit(s) (or complaints) regarding waste disposal on the subject properties, or adjacent properties; and,
5) Brownfield site(s) on the subject property and/or adjacent properties.

If you have any questions, please do not hesitate to contact us. We would appreciate your response as soon as is convenient.

Regards,

Rodney W. Wingard
Environmental Manager

Re-Inspection scheduled to be conducted on or after 02/14/2023 at 19:40
Next inspection scheduled to be conducted on or after 02/13/2024

Item	Result	Remarks
Fire extinguishers are serviced, inspected, and tagged annually by a fire protection company.	Fail	All fire extinguishers must be serviced annual by a fire extinguisher contractor.
Code		
IFC - 906.2 - General requirements - Portable fire extinguishers shall be selected, installed and maintained in accordance with this section and NFPA 10 . Exceptions: 1. The distance of travel to reach an extinguisher shall not apply to the spectator seating portions of Group A-5 occupancies. 2. Thirty-day inspections shall not be required and maintenance shall be allowed to be once every 3 years for dry-chemical or halogenated agent portable fire extinguishers that are supervised by a listed and approved electronic monitoring device, provided that all of the following conditions are met: 2.1. Electronic monitoring shall confirm that		

extinguishers are properly positioned, properly charged and unobstructed. 2.2. Loss of power or circuit continuity to the electronic monitoring device shall initiate a trouble signal. 2.3. The extinguishers shall be installed inside of a building or cabinet in a noncorrosive environment. 2.4. Electronic monitoring devices and supervisory circuits shall be tested every 3 years when extinguisher maintenance is performed. 2.5. A written log of required hydrostatic test dates for extinguishers shall be maintained by the owner to verify that hydrostatic tests are conducted at the frequency required by NFPA 10 . 3. In Group I-3, portable fire extinguishers shall be permitted to be located at staff locations.

Item	Result	Remarks
Fire extinguishers mounted properly and readily accessible.	Fail	Atleast one extinguisher was on the floor. All extinguishers shall be installed on an approved bracket.
Code		
IFC - 906.7 - Hangers and brackets - Hand-held portable fire extinguishers, not housed in cabinets, shall be installed on the hangers or brackets supplied. Hangers or brackets shall be securely anchored to the mounting surface in accordance with the manufacturer’s installation instructions.		

Item	Result	Remarks
Breaker box does not have any open slots or circuits, circuits are clearly labeled, breaker cover(s) remain closed.	Fail	Noted one open slot in one of the breaker panels.
Code		
IFC - 604.1 - Abatement of electrical hazards - Identified electrical hazards shall be abated. Identified hazardous electrical conditions in permanent wiring shall be brought to the attention of the responsible code official. Electrical wiring, devices, appliances and other equipment that is modified or damaged and constitutes an electrical shock or fire hazard shall not be used.		

Item	Result	Remarks
All electrical junction box covers, outlet covers, and switch plates are secured in	Fail	Noted open wires exposed on the an old pole mount.

place.		This must be covered or removed.

Code
IFC - 604.1 - Abatement of electrical hazards - Identified electrical hazards shall be abated. Identified hazardous electrical conditions in permanent wiring shall be brought to the attention of the responsible code official. Electrical wiring, devices, appliances and other equipment that is modified or damaged and constitutes an electrical shock or fire hazard shall not be used.

Item	Result	Remarks
The property street address & suite identification are posted in not less than 4” tall numbers and/or letters.	Fail	4" address numbers needed above door leading in to the kitchen area.

Code
IFC - 505.1 - Address identification - New and existing buildings shall be provided with approved address identification. The address identification shall be legible and placed in a position that is visible from the street or road fronting the property. Address identification characters shall contrast with their background. Address numbers shall be Arabic numbers or alphabetical letters. Numbers shall not be spelled out. Each character shall be not less than 4 inches (102 mm) high with a minimum stroke width of 1 / 2 inch (12.7 mm). Where required by the fire code official , address identification shall be provided in additional approved locations to facilitate emergency response. Where access is by means of a private road and the building cannot be viewed from the public way , a monument, pole or other sign or means shall be used to identify the structure. Address identification shall be maintained.

Item	Result	Remarks
Emergency Stop will be required if pumps are on when no store attendant is working.	Fail	If you choose not to install the E-stop you must ensure gas pumps are off when no gas attendant is on site.

Item	Result	Remarks
Gasoline powered equipment should not be stored in the building.	Fail	Noted gas powered equipment in the old kitchen area.

Item	Result	Remarks
Door in kitchen that is bared needs a sign stating "THIS IS NOT AN EXIT" Should be at least 2" tall letters and must contrast against the background.	Fail	add "THIS IS NOT AN EXIT" to this door.

You are hereby notified that this is an official ORDER of the Orangeburg County Fire District stating the defects found to exist in the above-referenced structure or building. You are further notified that the owner, agent, or party in control of said building or structure may APPEAL this ORDER within 30 calendar days by writing to the Orangeburg County Building Regulations Board of Appeals. If you do not appeal this ORDER, you as owner, agent, or person in control of said structure or building have 30 calendar days to complete the specified repairs or improvements. This report does not imply that the occupancy is safe from fire or that all code violations have been identified.
